

CANAL "SCANDAL"  
NIPPED IN BUDPresident Shonts Explains  
The Alleged FavoritismCOMMISSARY CONTRACT AWARD  
ED TO BEST BIDDER.Story That One Competitor Was Fav-  
ored Proves to Be Utterly  
Without Foundation.

OYSTER BAY, Sept. 14.—A contract for the hotel and subsistence concession on the Panama canal zone, awarded to Jacob E. Markel of Omaha by President Theodore R. Shonts of the Panama Railroad company, will stand. This in effect is the decision of President Roosevelt, who today approved a report on the subject made to him by Shonts.

The contract amounts, in the aggregate, to many millions of dollars but Minister Shonts reports indicates that it may be abrogated at the will of the government which actually will own the permanent plant used by Markel in filling the terms of his contract.

The president today authorized the publication of a report he had received from Shonts, as president of the Panama Railroad company, regarding the protest recently received by him from Hudgins and Dumas and H. Balfe of New York, against the award of the contract to Markel.

The protestants alleged that they had not been accorded fair treatment by President Shonts and that through a leak in Shonts' office Mr. Markel had been informed of the nature of their protest and had been enabled thereby to incorporate in his bid the menu which Hudgins and Dumas had submitted.

In his letter to the president, Shonts says that on his arrival at the isthmus on July 26th he found a most pressing necessity for immediate arrangements for feeding the employees and that it was determined by Governor Magoon, Engineer Stevens and himself that this matter should be handled by the Panama railroad and not by the isthmian canal commission, as the commissary department was also in charge of the railroad company and that company was already operating one hotel at Colon.

"I found Jacob E. Markel on the isthmus, he having gone down at the instance of Mr. Wallace to study the situation. It was decided while on the isthmus that the railroad company should furnish the plant, including the buildings and equipment; that it should maintain the buildings and the contract to furnish the equipment so that in the event of it becoming necessary for the railroad to cancel the contract we should control the entire plant. Before Mr. Markel left the isthmus we had told him we expected to take this step upon our return and would like him to make a proposal when we got here to submit the specifications for the building and equipment."

"We later received a communication from Messrs. Hudgins and Dumas, and Mr. Balfe, asking for opportunity to make proposals. As soon as the specifications were drafted we mailed to Mr. Markel, to Hudgins and Dumas and to Mr. Balfe a copy of the same form and invited proposals. We did not advertise, because it was a road matter and because of the urgency of the case."

Shonts states that he held a conference with the three prospective bidders, and at the suggestion of Hudgins and Dumas included a weekly menu in the specifications.

"When the proposals were received I found that Mr. Balfe's was 50 per cent higher than Mr. Markel's in some items, and that Hudgins and Dumas were so much under either of the others that I felt there was some misunderstanding on their part as to the meaning of the specifications. Thereupon I wrote them a letter amplifying the specifications, going more into detail, and I gave them an opportunity (if they did not understand the specifications) to amend their proposal. They immediately amended their proposal, raising their prices on some items over 100 per cent and when they brought the amended proposal to my office they wrote me a letter giving the additional information."

"Simultaneously, after writing this letter to Hudgins and Dumas I wrote exactly the same letter to Mr. Markel so that if he had labored under any misapprehension he also could amend his proposal. Mr. Markel replied that having a thorough knowledge of the situation on the isthmus he had considered these matters in making his proposal and stated that he stood part on the same. I did not write to Mr. Balfe because his prices were so high that it was not necessary to longer consider him in the matter."

"When these amended proposals were received it was found that in every item but one Mr. Markel was either at or lower than Messrs. Hudgins and Dumas."

"In making the award I took into consideration, not only the prices, but the experience of the bidders and the organization they have."

"In view of the fact that Mr. Markel has been doing for thirty years exactly this kind of work in the states that he will have to do on the isthmus, it seemed to me that even if his prices had been somewhat higher the company could well afford to pay something for his wide experience in this line of work, as against two young men who have had but a local experience in the city of New York but I think will average lower than those of Hudgins and Dumas although that is a difficult matter to determine because no one can tell how many of each class of meals will be served."

Shonts states that it was not requisite for the railroad to invite proposals at all and that the railroad does not employ anybody to serve it or

even keep the buildings in order. All of this is done by the holder of the privilege. It is entirely optional with the laborers to avail or not to avail themselves of this opportunity, there being no requirement on their part to patronize either the hotels or camps. The railroad merely assures to them the choice of being fed in this way by a responsible party with good food at reasonable prices, thus guaranteeing them against extortion and assuring to them a means of sustenance on an economical basis.

CHRISTIAN ENDEAVOR  
MOVEMENT'S PROGRESS  
DURING THE QUARTER.

BOSTON, Sept. 14.—The quarterly report on the progress of the Christian Endeavor movement by Rev. Francis E. Clark, president of the United Society of Christian Endeavor, made public today records advancement. There are 63,003 affiliated societies, an increase of 231 since the last convention.

The executive committee of the board of trustees of the united society has appointed an international committee to take charge of the plans for celebrating the silver anniversary of the movement. This will take the form of the creation of a special fund for extending 'young peoples' work in all parts of the world, and the erection of an international headquarters building in honor of President Clark, the founder.

ARMISTICE SIGNED ON  
FIELD OF BATTLE  
AFTER LONG SESSION

GUNSHU PASS, Manchuria, Sept. 14.—Major General Ovanysky and his suite returned from Mochialio at 8 o'clock this morning. At 7 o'clock this evening General Ovanysky and General Fukushima signed an armistice ordinance in the open plain near Shakhedze, after negotiations had been conducted for nine consecutive hours.

HOW INSURANCE  
COMPANIES WORKMORE INTERESTING DISCLOSURES  
ARE MADE.Mutual Life Brought Guarantee Trust  
Shares and Dividends Have Paid  
the Cost.

NEW YORK, Sept. 14.—When the special legislative committee probing life insurance companies' methods, adjourned for the present, the examination into the Mutual Life Insurance company and the Metropolitan Life Insurance company was started up, when Silas B. Dutcher, a director and a member of the finance committee, was called to the stand.

Dutcher was questioned regarding the securities held by the Metropolitan and as to the syndicate operations of his company's officers, but could not remember them. He will present the list of officers' salaries to the committee tomorrow. Dutcher was still on the stand when the committee adjourned.

Early in the day Treasurer Cromwell had taken the stand to continue his explanation of the Mutual Life's syndicate operations. In explaining the relations of the Mutual with trust companies, Cromwell stated the interesting fact that on his purchase of \$1,200,000 worth of shares of the Guarantee Title and Trust company, the Mutual had received in dividends \$1,200,000 making these share cost nothing and realizing a profit. Cromwell stated these shares are now selling at over \$800.

In his testimony after the recess, explaining a matter of a purchase of Bank of California stock, Cromwell said the issue price of the new stock was \$30. Cromwell hoped to get the shares at this figure but in the end, the shareholders, to whom, under the California law, the rights to the new issue belonged, held out and the Mutual obtained its 5000 shares at an average price of 380.8-10. The sale was entirely by individuals and there was no syndicate. The transaction was left entirely to William Rabcock, with absolute confidence that he was dealing fairly with the Mutual.

Hughes asked how the increase or decrease of bank balances were controlled. "I control them," said Cromwell. "But finally, he added, the finance committee must approve all his actions for the bank balance was scrutinized by the committee every week. His own power was temporary and anything he could do would be revoked within a week."

Cromwell was asked whether he increased or decreased his holdings in the debentures of the United States Mortgage and Trust company to assist the trust company. He replied:

"Not entirely so; it is partly to help our whole western clientele to know that through one of our companies they can get money on bond and mortgage."

The advertising, printing, stationery and postage account of the Mutual is \$1,384,834.47 of the New York Life \$851,283.75 for the Equitable \$772,645.50.

"How are advances made to agents by the Mutual?"

"It is done through the general agents of the departments, but I understand the amounts are not large."

"You have no account with the American Exchange Bank?"

"We have had it for nearly a generation."

"Do you receive any interest?"

"None whatever; its president is one of our trustees, and he tells us frankly if we want interest we must go elsewhere, but we have not thought it gracious to close our account."

It was at this point that Dutcher was called.

Of \$75,000,000 of the securities held by the Metropolitan about \$65,000,000 were purchased from Vernilye & Company, and W. A. Reid & Company.

Dutcher said the president usually did the purchasing of securities for the Metropolitan.

It appeared from the questioning that the president of the Metropolitan had sole discretion in which banks and trust companies deposits should be kept.

DESERTION BY "FRIENDS"  
CAUSED BUNKERS TO TELL  
The Convicted Boodler Denounced  
Emmons and Others Because  
They Neglected His Wife

SACRAMENTO, Sept. 14.—Forgetful of the restraint he had hitherto exercised; forgetful, apparently, of his predicament and sufferings; realizing, apparently that his voice, scarcely audible before, was filling the court room with its volume, Harry Bunkers furnished the feature of this morning's session in telling Attorney Grove L. Johnson, under cross examination, why he had decided to make the confession which has made the Emmons trial a legislative sensation.

His attitude was full of wrath as he denounced his alleged associates in bribe taking. His eyes blazed and he leaned forward from the witness chair as he said:

"I was deserted by my friends—  
• the men who called themselves  
• my friends and promised to stand  
• by me—who promised to take care  
• of my wife and child. I heard  
• that Senator Emmons and his  
• wife were in San Francisco. They  
• knew their financial situation and  
• they did not go near them. My  
• wife was working her heart's blood  
• and they did nothing. That's why I  
• did it."

"In other words," said Attorney Johnson, "you did it out of a mean desire to get even with the men who you said had deserted your wife and child. And even if the district attorney had not promised you immunity from prosecution you would have made the statement."

"Yes."

"Did you tell Mr. Jacobs that the district attorney had agreed to confess error and give you a new trial if you would confess?"

"No."

"Did you feel the same way toward the other men, toward Mr. Wright and Mr. French?"

"Yes."

"And you are ready to testify against them as you have testified against the defendant in this case?"

"Yes."

"If you had furnished your bond would you have testified against them?"

"No, I don't think I would."

"No, I don't think I would in the collar when I learned how his wife and child had been neglected."

The afternoon session was tiresome to the judge, the jury, the spectators and the attorneys. Bunkers, too, showed signs of physical weakness as he left the stand but the cross examination of Johnson kept him awake and on the alert throughout the long hours of the afternoon. Except for a few minutes period when it seemed that something was to develop, on the intimation of the desertion of Bunkers from the navy, Johnson confined himself to a comparison of the testimony given by the witness at his own trial during the session of the previous day and in the moment before "The baiting of Bunkers" would describe it exactly.

In reply to questions Bunkers stated that he had been married seven years; that he thinks a great deal of his wife and that he did during the last January and February.

In the afternoon, Johnson was taking Bunkers and Joe Jordan across the bay on the ferry boat when he suddenly diverged and asked:

"What was your business before you came to this city?"

"Was in the restaurant business" was the reply. "Before that I was in the insurance business. Before that a marine engineer. Before that an officer on the Australia and before that a fireman. Prior to that I worked in the railroad shops."

It was evident that Bunkers did not relish this portion of the cross examination and at one time he turned appealingly to the judge and snapped out "This isn't anything, is it?"

Johnson corrected, however, and established that Bunkers had been three years in the United States naval service as a marine engineer. He had been in the navy and was enlisted but did not remember when he went in or quit. He said he enlisted on the Oregon at Mare Island, ten or twelve years ago, but did not remember the exact date of enlistment.

He admitted that he had been twice in the service and that he had served as fireman on the collier Nero. He had enlisted the second time in 1899. He said he had gone to Manila and quit on his return to San Francisco.

It was whispered that Johnson was attempting to prove Bunkers deserted from the navy but he dropped the examination on this point and did not gratify expectant curiosity.

There were further comparisons of transcripts during the next hour but nothing of interest and the court took a recess until tomorrow morning. The jury being locked up by the sheriff and Bunkers returned to his cell in the jail.

Bunkers looked quite haggard. The crowd in attendance upon the trial was even larger than that which yesterday heard Bunkers' sensational confession. Mrs. Emmons was on hand, as usual, and watched with keen interest every move made in the case.

Bunkers' Evidence.

When Bunkers took the stand District Attorney Seymour asked him to relate a conversation he had with Joseph S. Jordan in which the latter had said one building and loan association had dropped out.

Attorney Johnson for the defense, objected on the ground that it was cross-examination of his own witness. The court over-ruled the objection and Bunkers said Jordan told him that there would be only three companies and that instead of getting \$500 each, they would get \$350.

Seymour asked what these three companies were, and the witness said they

were the Phoenix, the Renters and the Pacific States, all building and loan associations.

Emmons Liked the Talk.

The witness again told of conversation he had with Emmons, in which he told the latter that Jordan had informed him that he would soon have something good to bring to them. Bunkers said Emmons replied that was the kind of talk he liked to hear.

The witness said he informed Jordan that the committee would protect the Phoenix and the Renters and avoid issuing a subpoena against them.

Much to the surprise of the crowd in the court room, District Attorney Seymour closed the direct examination of Bunkers, and turning dramatically to Johnson said:

"Take the witness."

Without hesitation Attorney Johnson took up the cross-examination. After a few minor questions Johnson asked:

"Are you the Harry Bunkers who was on trial in this court last April for bribery?"

"Yes, sir," the witness responded.

"You testified to a state of facts at that time with reference to your connection with the bribery case different from that to which you now testify. On which occasion was it that you committed perjury—then or now?"

An objection was raised to this question, which the court overruled.

Johnson renewed the question, and after some hesitation Bunkers replied:

"I am telling the truth now, but did not tell the truth at my trial."

"Then you committed perjury then?"

An objection to this declaration was sustained.

Johnson then declared that the district attorney should swear to a complaint charging Bunkers with the crime of perjury. He added that if the district attorney did not swear to the complaint he (Johnson) would do so.

The Confession.

The court ruled Johnson out of order and the attorney for the defense then took up the confession made by Bunkers to District Attorney Seymour.

Bunkers told of having made a statement to the district attorney in the presence of County Detective Philip O'Neil, which was taken down in shorthand by the official court reporter, Warren E. Doan.

In answer to a question by Johnson, Bunkers said he did not sign the confession. He also testified that no promises of reward of any kind had been made to induce him to make a confession.

Johnson then started on a hunt for the confession, and in answer to a number of questions Bunkers said he believed it is in the possession of Seymour.

Johnson then created a mild sensation by asking the court for an order directing the prosecution to turn the confession over to the defense.

Charles T. Jones, special counsel for the prosecution, refused to make a statement in the confession which were wholly contradictory of testimony he gave on the witness stand yesterday.

Jones charged Johnson with attempting to influence the jury by making a statement which could not prove. Johnson declared that he had no such motive.

Johnson proceeded to the citation of authorities in support of his motion for an order requiring Seymour to give up the confession. He referred to a number of precedents, confessed perjury, and that the statements he had made to the defense and the defense was entitled to it.

Seymour followed, resisting Johnson's contention. He said the document in his possession was simply a transcript of notes of statements made by Bunkers to him. The statements were not sworn to by Bunkers, were never signed by him; nor were they ever read to him, Seymour said. He held that the confession was his personal memoranda and could not be introduced in evidence. Seymour then cited authorities to offset those offered by Johnson.

Johnson said Seymour had gone off on the wrong tack, evidently believing that he (Johnson) wanted to introduce the statement in evidence. Johnson said he did not want to introduce the document in evidence, but he wanted to get possession of the confession in order that he might ask Bunkers some questions from it and thus show that statements made by him to Seymour were in conflict with the testimony given by him in the present trial.

The argument consumed considerable time and at its conclusion Judge Hart denied the motion. He said he did not believe the court had jurisdiction to order Seymour to give up the statement. It was apparent to him, Judge Hart said, that the document was of the nature of a private memorandum. Seymour had caused notes to be taken of his conversation with Bunkers for his own convenience.

After Johnson's motion had been disposed of the attorney asked Bunkers if his statement, or confession, had been read to him.

The witness said a few lines had been read to him and he supposed "from what little had been read that the rest of the document was correct."

Memory Failing.

Johnson then took up the question of Bunkers' memory, and the witness said the longer he stayed in jail the worse his memory became.

Johnson asked again what inducement had been offered him to make a statement. He replied that Seymour had told him that anything he might say would not be used against him in the event of his appeal to the Appellate court being granted. Seymour also told him that he would not be prosecuted for perjury.

Spurt of Revenge.

Johnson sought further information as to why Bunkers had confessed. The witness showed a spirit of revenge, and admitted that it was Emmons, Wright and French and their friends had not assisted Mrs. Bunkers as they had promised to do.

"I'll tell you why I made that statement," said Bunkers, straightening in his chair, his face pale with passion. "It was because people who were supposed to be my friends never did what they promised, and left me in jail and never went near my wife and children. They left them to get along as best they could. I was told that Senator Emmons was in San Francisco, three weeks and he never went near my wife and boy. That's why I made that statement."

Bunkers was then asked if it were not a fact that Attorney Jacobs and District Attorney Seymour had promised to go into the Appellate court and confess error in his case in order that he might have a new trial, in order to get the confession from him.

Bunkers said no such proposition had ever been discussed.

Johnson then asked Bunkers if he felt toward Wright and French, he felt toward Emmons. Bunkers said he did, and entertains the same feeling now.

Resuming, Johnson asked Bunkers if when the committee on retrenchments was organized, he as chairman, notified Senators Rambo, Bauer and Coggin, the other members of the date which the meeting was to be held. Bunkers said he had sent out notices.

(Continued on page 8.)

REPUBLICANS OF  
NEBRASKA MEETRAILROAD LEGISLATION WAS THE  
MAIN ISSUE.Convention Has Only to Nominate Can-  
didates for Supreme Court and  
University Regents.

LINCOLN, Neb., Sept. 14.—The Nebraska Republican state convention met in this city today with a large attendance of delegates and prospects for an interesting session, owing to the agitation against railroad passes which has been sweeping the state for several months. So great was the interest taken in the question that it promised to overshadow the primary work of the convention, which was the nomination of one candidate for the Supreme court and two regents of the state university.

The anti-pass agitators were determined that resolutions against the giving of such favors should be adopted by the convention this year, in order that the question might be a positive issue next year when candidates for the legislature are named. Those who oppose the adoption of such a resolution this year took the position that it was idle to do so when none of the nominees of this convention should have anything to do in making an anti-pass law.

There was also a strong sentiment for a 2-cent passenger fare and for a distance freight tariff which would make it impossible for the railroads to charge more for a short haul than for a long haul.

Lieutenant Governor McMillon of Omaha was made temporary chairman. The temporary organization was made permanent. A committee of seven was appointed to draw resolutions and the convention then heard nominations for Supreme judges.

The convention nominated the following ticket:

Justice of the Supreme court, Charles B. Letton of Fairbury.

Regents of the university—U. G. Lyford of Falls City, Frederick Abbott of Columbus.

The platform endorses the administration of President Roosevelt and praises him for bringing about peace between Russia and Japan. The platform continues: "We heartily approve President Roosevelt's recent utterances as to the control of railroads and large corporation interests."

The platform also passes the committee recommends that a law be enacted to prevent their distribution.

AMERICAN MAKERS  
OF FARM MACHINERY  
REGISTER PROTESTS

WASHINGTON, Sept. 14.—The state department today received communications by telegraph and mail from a dozen points in this country where agricultural machinery is manufactured, protesting against what the manufacturers declare to be a blow to their industry by the Argentine government imposing prohibitive duties on parts of agricultural machinery.

It appears that American machines are sold in Argentina at a very low figure, in consideration of the fact that the manufacturers made considerable profits from the sale in supplying the machines to replace those broken or worn out in use.

The department has not so far been officially advised of the levying of this duty, and in fact it is not clear whether the action complained of is really the imposition of a new duty or merely a new executive construction of the regular tariff act, so American Minister Beaumont, at Buenos Ayres, has been called on by the department to report immediately the facts in the case and if the subject is one that properly can be taken up by the Argentine government will be addressed.

French Financier Suicided.

PARIS, Sept. 14.—Baron Salomon de Gunzberg, a prominent financier, was found dead at his residence here today. He was shot through the heart and it is alleged that he committed suicide, owing to losses resulting from the recent failures in the sugar trade.

Bandit Rainsui Brought Peace.

TANGIER, Sept. 14.—The warring tribes have submitted to Rainsui and peace has been restored in the suburbs.

BRYAN APPEALS  
TO ROOSEVELTAsking Him to Work for  
Peace of the WorldWOULD HAVE CONGRESS TAKE  
ONE STEP AT ONCE.It Is a Good Thing to Have Ended War  
But Would Be Better to  
Prevent It.

LINCOLN, Sept. 14.—A letter addressed to President Roosevelt from William J. Bryan, in which a plan for permanent peace is suggested, was made public this evening. Bryan congratulates the president on his success in bringing Russia and Japan together and says:

"Why not ask congress for authority to submit all international questions (when an agreement cannot be reached by the parties interested) to an impartial body for investigation and report? Investigation will in nearly every case remove the cause of complaint and reconcile the parties."

"It is a national disgrace to submit to arbitration in advance could be settled by investigation by an impartial international board."

"It was a glorious thing to end the war between Russia and Japan, but it would have been more glorious to have prevented the war and saved the frightful loss of life."

"The moral prestige which our nation now enjoys would in all probability enable it to lead a successful peace movement. The congratulations which you have received from the heads of European governments strengthen the chances of success."

"If leading nations of the world would enter into an agreement to join in the creation of such a board and pledge themselves to submit all disputes to the board for investigation before declaring war, the danger of war would be reduced to a minimum. Few men have the vision or power to do so much for humanity will you improve the opportunity?"

"W. J. BRYAN."

EMPLOYEES OF CIRCUS  
STRANDED IN FRANCE  
OBJECTS OF CHARITY.

NEW YORK, Sept. 14.—A number of the members of the McCaddon circus, which was recently stranded at Grenoble, in Southern France, arrived here on the steamer Rome today. Four of the party were cabin passengers, among whom was C. M. McLeod, advance agent of the circus. The rest came over in the steerage. McLeod said the troupe had numbered about 300 persons and that it was stranded because of a financial institution on the receipts of the show, and 120 of the members were left destitute. The American consul at Grenoble, Charles P. H. Nason, cared for them. Many members of the circus are still at Grenoble or Paris so destitute that they depend for support upon private subscriptions of money.

METHODIST CONFERENCE  
RECEIVED REPORTS  
AND NEW MEMBERS.

PACIFIC GROVE, Sept. 14.—The Methodist Episcopal conference opened its day's proceedings with prayer and exercises, meeting led by Rev. W. W. Case. Bishop Berry then received a number of new members. Dr. Swartz spoke of the need of missionary work in Japan. Rev. John Coyne, presiding elder of Oakland district, in presenting his report, spoke of the struggle of citizens to obtain a foothold and a free hold, making it difficult to acquire property in the city. The Oakland churches, he claimed, stood for everything spiritual, vital, intelligent and progressive.

SNAPPING OF PILE  
KILLED THE FOREMAN  
OF SAN PEDRO WORK.

SAN PEDRO, Sept. 14.—Joseph Chambers, 26 years of age, a native of Austria, foreman in charge of the work on the government breakwater, was struck on the head and instantly killed this morning by a portion of a large pile which snapped in two when it was being pulled from the edge of the breakwater and was knocked on to a pile of rocks and rolled from them into the water. The comrades began a search for the body and some time later it was found. Life was extinct and it is thought the blow on the head killed him.

LIGHTNING BOLT  
KILLED FOUR MEN  
AT COUNTY FAIR.

INDIANOLA, Iowa, Sept. 14.—Four men were killed, six were perhaps fatally injured and a dozen more were stunned by a bolt of lightning that struck a crowded poultry exhibition tent at the county fair here today. Thousands of chickens were killed. The dead: Ray Anderson, Carl Peterson, and Theodore Young, all of Indianola, and Plaine Wright, Pleasantville.

The seriously injured: Dr. Carpenter, J. McGinnall, E. W. Free, Earl Barker, C. S. Helberger, John Smith, all of Indianola.

Belgians Want Hankow Road.

ANTWERP, Sept. 14.—The Metropole today says the Belgian minister at Pekin has been directed to co-operate with the French minister in making representations to China to the effect that the Peking-Hankow railroad concessions give Franco-Belgian interests priority to build and operate the line after the withdrawal of the Americans.

Bandit Rainsui Brought Peace.

TANGIER, Sept. 14.—The warring tribes have submitted to Rainsui and peace has been restored in the suburbs.

## SCHOLARS ARE MANY

SELMA'S GRAMMAR AND HIGH SCHOOL BUILDINGS CROWDED.

Arrangements Completed for W. C. T. U. Grand Gold Medal Contest—Selma Notes.

SELMA, Sept. 14.—The Selma grammar and high school opened this week under very auspicious circumstances. The attendance in each school is larger than at this time last year, though the organization of the Kingsburg district removed several pupils from this school. The enrollment at the high school is 109.

The enrollment of the grammar for the first week has reached the 400 mark and the school buildings are well taxed to accommodate them. Applying for places, Principal Elliott states that the higher grades are quite crowded. Miss Williams in the eighth grade has 45 pupils, Professor Serling in the seventh 40, Miss Price in the sixth 35, Miss Wasgatt in the fifth 38, Miss Baird the overflow fifth of 24 and the overflow fourth of 21, total 35, Miss Posey in the fourth grade 37, Miss Lewis in the third 41, Miss Smith in the second 44, Miss Wallace an overflow class of 12 in the third grade and 13 in the A first, total 25, while Miss Grinnig has a class of beginners numbering 40.

The usual concert will be given by the Selma concert band Saturday evening, when the following program will be rendered: "March, Directorate," overture, "Mayflower," Waltz, "Love-land," Intermezzo, "Korona," "Love-land," "Star Spangled Banner." The concert will continue during the present month.

Arrangements are completed for the W. C. T. U. grand gold medal contest to be given tomorrow evening at the J. M. Byrne furniture store. Mrs. A. A. Rowell, county superintendent of contest work, announces that speakers will be present from Fresno, Fowler, West Park and Selma. A good musical program will be rendered.

Word was received here today of the death of Walter Coughran at Visalia this morning. The deceased was here a few years ago with his mother, Mrs. Styles, who was at that time proprietress of the German hotel. He was a young man and a member of Selma Camp, Woodmen of the World in which order he carried insurance. He will be buried at Visalia.

T. J. Elliott left this morning for Haywards and San Francisco on business. T. L. McKnight of City county, Ill., arrived here a few days ago, with his brother, L. T. McKnight and sister, Mrs. Moore. He will go to Los Angeles Sunday.

George W. Woods, who recently moved here from Los Angeles, has purchased the M. Lewis residence property. He expects to go into business here in the near future.

J. H. Say has sold his dwelling on Young street and is moving to the county yesterday. He will at once build a modern residence on the lots thus vacated and when completed will move to town.

J. J. Vanderburgh and family returned from San Francisco yesterday afternoon, after an absence of ten days.

**HIRING OF NEGROES IN A LUMBER CAMP LED TO DISTURBANCE**

NEW MADRID, Mo., Sept. 14.—Trouble over the importation of negroes into the lumber camp of Oriskany, Delaney was renewed last night and may end in troops being requested. A mob of whites attacked Delaney and his negro workmen at Henderson Mound and a pitched battle ensued. Seventy-five shots were fired and the side of the house in which Delaney was sleeping was shot to pieces.

Delaney was wounded in the hand and it is thought that some of the mob were hit. Delaney came to New Madrid today and bought all the rifles in town, declaring he will keep the negroes at work in spite of any resistance. The anti-negro element has been reinforced and further trouble is expected.

**JEFFERSON CITY, Mo., Sept. 14.**—Acting Governor McKinley telegraphed today to Robert Rutledge, prosecuting attorney of New Madrid county, and Sheriff T. E. Henry, instructing them to take prompt measures to protect life and property.

**MAYOR PATRICK COLLINS, BOSTON'S DEMOCRATIC LEADER DIED AT HOT SPRINGS**

BOSTON, Sept. 14.—The death of Mayor Patrick A. Collins, at Hot Springs, Va., was announced here today by M. J. Curran, secretary to the mayor. A telegram received by Curran briefly reported the sudden demise of his chief.

Mayor Collins was one of the leading Democrats of the country. He served in congress from 1883 to 1889 and was United States consul general in London from 1893 to 1897. He was the president of the national democratic convention in 1888.

Mayor Collins was regarded here as one of the last members of the so-called "old school" in national life. The general respect in which he was held as a national figure was enhanced by the affection in which he was held by the people of Boston. The news of the mayor's death became a circulating throughout the city and caused a profound sensation. Expressions of grief were heard on all sides and tributes were freely spoken.

**SMELTING TRUST INCREASED DIVIDEND ON COMMON STOCK**

NEW YORK, Sept. 14.—The directors of the American Smelting and Refining company today declared a quarterly dividend of 13 1/2 per cent on the common stock. This is an advance of 1/2 to 1 per cent over the last previous rate and increases the dividend rate from 6 to 7 per cent. The regular quarterly dividend of 12 1/2 on the preferred stock was also declared. Daniel Guggenheim was elected president of the company, succeeding the late Edward W. Nash. The chairmanship of the board previously held by Mr. Guggenheim was held by Mr. Nash. Mr. Guggenheim also succeeds Nash as president of the American Smelting Securities company. Edward Brush, secretary of the smelting company, was elected assistant to President Guggenheim.

**Admiral Rojestvensky Recovered.** ST. PETERSBURG, Sept. 14.—A letter received here from Japan says Vice Admiral Rojestvensky has completely recovered from the wounds which he sustained at the battle of the Sea of Japan, but that he will not come home until the peace treaty is ratified.

## NEWS OF VISALIA

CORPORATION WITH MILLION DOLLAR STOCK FILES ARTICLES.

Walter Coughran Dies at Home of His Mother—Swan Baker Takes Note Himself a Wife.

VISALIA, Sept. 14.—Articles of incorporation of the Porterville Mutual Building and Loan Association were filed today. The capital stock is \$1,000,000 of which \$57,000 has been actually subscribed, by forty-eight shareholders. The directors are as follows: T. L. Price, S. A. Barber, L. F. Jones, G. L. Robbins, George C. Murphy, H. C. Carr and M. A. Hornbeck. All of the directors are at present residing in Porterville. Articles of incorporation of the Magnolia Water Co. were filed this morning. The principal place of business is Porterville. The capital stock is \$500,000 of which half has been actually subscribed. The directors are Adam Sauerwein, G. A. Hunt, Henry Anthony, J. A. Unger and George D. Avery.

Walter Coughran of this city died at the home of his mother, Mrs. R. B. Stiles, at 10:45 o'clock last night, consumption being the cause of his death. He was a native of Tulare county and was 31 years of age. He leaves his mother and three brothers, W. F. Coughran of Tulare, Robert Coughran of Arizona, and Claude Coughran of this city. The deceased was a member of Selma camp, Woodmen of the World in which order he carried a life policy of \$2,000. He had been ill for several years. The funeral will be held from the residence at 10 o'clock Saturday, interment being in the city cemetery.

Miss Marian L. Ward of this city will teach in the Lincoln school at Redlands the coming year and will leave shortly for that place.

Miss Lillian Cross returned yesterday evening from San Francisco where she has been spending the summer.

Mrs. C. J. Giddings returned yesterday evening from San Francisco where she had been for a few days en route home from Portland.

Swan Baker of Porterville and Miss Lora Emily Ward of Duncan's Falls, Ohio, were married at high noon today in the parlors of the Palace hotel in this city. They left this afternoon for Fresno on a brief honeymoon trip. They will make their home at Porterville.

William Henry Shella, aged 23 and Susie Jefferson, aged 25, both natives of California and residents of Visalia, were granted a license to marry today.

Mrs. E. O. Larkins and daughter Calla and Miss Portie Callaway returned last night from Santa Cruz where they have been spending several weeks.

Mr. and Mrs. C. Housch and little Leora Noel returned yesterday evening from Santa Cruz.

County Recorder Ira Christian has returned from a mining trip to Mariposa county.

Joshua Baker of this city and Miss Esie Cooper of Bakersfield were married in this city last night. They will make their home here.

A. T. Griffin left this morning for Berkeley where Mrs. Griffin and several of her sons are attending school and where he will reside. Griffin has leased his ranch near this city.

Mrs. John Wilson and daughter Nora left this morning for San Francisco.

Mrs. Mary E. Blair and daughter Miss Calla Blair of Oriskany returned yesterday evening from Santa Cruz where they have been staying.

A. H. Murray, Jr., court reporter, and Ward DeMasters returned yesterday evening from a fishing trip on Upper Tulare river.

## ANGLO-JAPANESE TREATY GOSSIP

**TOKIO DELAYS IN GIVING THE DETAILS OUT.**

In the Meantime There is a Rumor That Secret Clauses Have Been Made.

PARIS, Sept. 14.—The foreign office has received a dispatch from the French minister at Tokyo saying that cable had been re-established, but the legation is a precautionary measure, continues under military guard. The dispatch does not mention the rumored attack upon the family of Baron Komura, which is construed by the officials here as showing that the report was unfounded.

It is the present intention of the post-poning making public the text of the new treaty between Great Britain and Japan. The officials here were advised that the first plan was to make it public in London and Tokyo last Monday, but Japan asked for further time, probably on account of the internal disorders, and it was thereupon arranged to let the publication go over for a month, when it is said the text of the treaty of alliance and of the Portsmouth treaty will be officially communicated to the public at the same time, as the two documents are expected to counterbalance each other with the Japanese public.

However, it is possible that the action of the Japanese diet upon the treaties may lead to the postponement of their texts beyond a month. In the meantime it is said the new Anglo-Japanese alliance does not contain surprises outside of the main features summarized in these dispatches September 7, but that in addition, the agreement covers secret clauses, known only to the contracting parties and which will not be made public.

**Foundry Employees' Narrow Escape.** CHICAGO, Sept. 14.—Fire did \$150,000 damage to the Featherstone Foundry and Machine company plant today. The fire drove the employees of the foundry to the roof of the buildings. For a time it looked as though all would perish, but they were finally rescued with great difficulty by firemen with ladders.

**Hold-up in Bakersfield.** BAKERSFIELD, Sept. 13.—W. W. Thomas, a prominent resident of Wasco, this county, was held up upon one of the main streets of this city last night shortly before 9 o'clock by two masked footpads, and at the point of a revolver forced to give up about \$20 in money.

Cleanse and renovate the vital fluid (for blood) and healthfully stimulate every bodily function with Lask's Kidney and Liver Bitters. Once used, all ways.

## HANFORD BUDGET

HEARING OF CHINESE GAMBLERS SET FOR TODAY.

Supervisors Meet to Fix Tax Rate—Carnegie Library Nearing Completion.

HANFORD, Sept. 14.—Quong Wah and Lou See, the Chinese gamblers, who were engaged in a game of fan tan were arrested yesterday by Officers Bernstein and Frederick, were taken before Justice Randall late yesterday afternoon, informed of the charge against them and released under bonds of \$100 each. Their hearing is set for Friday, September 15.

The Sunset Telephone Co. has a large force of men engaged in laying an underground four section conduit on Dooty street.

Fair Bros. began laying brick this morning for the Journal's new building.

The board of county supervisors will meet tomorrow to fix the county tax rate.

The walls for the Carnegie Library building are nearly completed, and the carpenter are now engaged putting on the roof, and building the partitions.

A Goldberg has had his residence moved from the corner of Bush and Irwin streets, to lots immediately north, facing on Irwin street, and he will shortly have constructed a modern residence on the site made vacant.

The concert given last night by the Hanford band was well attended and enjoyed by all. It was the last open air concert of the season. The boys will play at a concert tomorrow night at the McCombs New Pools.

The infant son of A. Neumeister died in this city Thursday, September 14th.

About 400 Hanfordites attended the circus in Fresno today.

Mrs. N. Weisbaum and family arrived home this afternoon from a visit to San Francisco relatives.

Mrs. Daniel Finn, her daughter and mother, Mrs. Corey, were among the arrivals this afternoon from San Francisco.

**THE WEATHER.** SAN FRANCISCO, Sept. 14.—The pressure has fallen over the Pacific slope. No rain has fallen west of the Rocky mountains except a light shower at Seattle. The weather continues at moderate temperatures of about 90 degrees.

Forecast: San Francisco and vicinity: Cloudy Friday; light south winds, changing to brisk westerly.

Los Angeles and vicinity: Fair Friday; brisk west winds.

Sacramento valley: Fair Friday; light north wind.

San Joaquin valley: Fair Friday; fresh north wind.

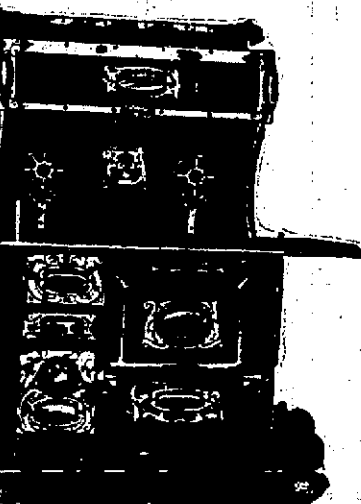

Coast: Fair Friday; fresh west wind.

**Count DeBrazza Is Ill.** PARIS, Sept. 14.—The minister for POST OFFICE RECEIPTS IN PORTLAND AND LOS ANGELES GROW.

WASHINGTON, Sept. 13.—Postal receipts for the fifty largest cities in the United States compiled by the Third Assistant Postmaster General aggregated for the month of August, \$5,818,151, against \$5,334,917 for the corresponding month in 1904 or an increase of 9.07 per cent. The highest percentage of increase shown by any city was at Portland, Ore., where the Lewis and Clark exposition raised the receipts to \$4,965, an increase of 44.05 per cent over the receipts for August, 1904. The next largest increase was 25.51 per cent at Los Angeles.

**Norwegian-Swedish Conference.** KARLSTAD, Sweden, Sept. 14.—The delegates of Norway and Sweden appointed to discuss the dissolution of the union of the two countries, spent the morning in private conferences. There was no joint session. After a short joint session in the afternoon the delegates adjourned until tomorrow.

**Old Railroad Man Dead.** BOSTON, Sept. 14.—Elijah Brigham Phelps, well known throughout the West in railroad management prior to 1890, died at Brookline today, aged 89 years.

## Our Steel Ranges

meet with approval from every one who uses them.

Our variety of ranges and stoves is unlimited—there's fancy stoves, plain stoves, big or little stoves—just step in any day and you'll find here just the stove you've long been wanting.

Our steel ranges excel every other range in convenience of operation, economy, of full durability of construction, finish and appearance.

Graff's stove headquarters for Fresno—\$5 varieties to choose from.

See the window display.

**H. Graff & Co.**

We have a complete assortment of Suit Cases and save you fully a quarter of the price.

## Your Fall Suit

Our fall stock of clothing is here and if you want to get a good selection now is the time. We can fit the thin and the stout man as easy as we can fit anybody. ## CALIFORNIA GEOGRAPHY

Should be studied by every citizen of California. It should be taught to the children, both in the school-room and in the home, as a matter of first importance. One of the easiest ways to learn California Geography is to secure one of the Fresno Republican's New Home Wall Charts. It will give you an excellent topographic relief map of California with statistics on elevations and irrigations. It will also give you a political map of the state of California, showing every county, river, railroad, town and city in the state. It also gives the population of every county, city, town and village, according to the latest government census, and this is not all. It shows you a splendid map of the United States, the Panama canal and history and statistics, it also gives you a special topographic map of Eastern Asia, Japan and the Island of Sakhalin. Also gives you a special map of the Philippines, Hawaii, Porto Rico, and to add to the beauty and usefulness of these charts, we give you in beautiful colors the flags of all nations. These all make a most convenient and useful reference aid to the business man, lawyer, doctor, teacher, or any other intelligent citizen. Every office, library or home should have one of these excellent library wall charts. You can obtain one of these wall charts by subscribing or continuing the paper for six months and paying extra express charge of 20 cents. Any further particulars, address the Wall Chart Dept., Fresno Republican, Fresno, Cal.

## AGAIN SEATTLE DID THE TRICK

BETTER FIELDING AND BATTING BEAT TACOMA.

Oakland Won From Seals After Twelve Innings—Angels Lost to Webfoot.

TACOMA, Sept. 14.—Seattle again defeated Tacoma, playing a better fielding game and hitting Brown hard. Tacoma was unable to do much with Oscar Jones until the last inning. Eagan and Hart scored home runs. Score: Tacoma..... 3 R. H. E. Seattle..... 14 2 1 Batteries—Brown and Graham, Jones and Blankenship. Umpire—McDonald.

At San Francisco.—San Francisco tied Oakland in the eighth inning today and it required twelve innings before the latter made an additional run, winning the game. The Oakland team made its two runs on three hits while San Francisco, with three hits in the last inning, was unable to score more than once during the game although they made a total of ten safeties. Catcher Wilson was retired in the seventh inning for talking back to Umpire Perrine and was replaced by Shea. Score: R. H. E. Oakland..... 1 10 5 San Francisco..... 1 10 5 Batteries—Graham and Byrnes; Henley and Wilson, Shea. Umpire—Perrine.

At Los Angeles.—Portland defeated Los Angeles again today in the second game of the series. Tozer pitched fairly effective ball for the locals but Jones for the visitors was more successful in tight places and shut Los Angeles out in all but one inning. Bad base running also helped the locals to lose. There was some very fast fielding on both sides, which kept the score down, although errors were made on each side. Score: R. H. E. Los Angeles..... 2 6 2 Portland..... 3 7 4 Batteries—Tozer and Spies, Jones and McLean. Umpire—Davis.

**American League.**  
At Detroit: R. H. E. Detroit..... 5 0 0 Cleveland..... 0 2 2  
At Chicago: R. H. E. Chicago..... 3 4 2 St. Louis..... 2 4 2

**National League.**  
At Boston: R. H. E. Boston..... 2 7 2 Philadelphia..... 5 8 2  
At Brooklyn: R. H. E. New York..... 10 7 1 Brooklyn..... 2 9 0

## AS ENEMY APPROACHED WITH DRAWN REVOLVER VICTIM KILLED HIM.

DUFER SPRINGS, Ore., Sept. 14.—As a result of a quarrel between neighboring farmers Richard Bennett Darnell, known as "Dick" Bennett, was shot and killed by Charles Underwood. Underwood and his partner, Maurice Woodward, had an altercation with Mrs. Darnell. Late at night Darnell went to the place occupied by Underwood and Woodward and demanded that they come at once and apologize to Mrs. Darnell under pain of being killed. Underwood did as demanded but Woodward ran away. After apologizing, Underwood was allowed to go, but was ordered to leave the country. The next day Darnell paid another visit to Underwood and Woodward. As Underwood saw him approaching, carrying a drawn revolver, he opened fire on Darnell with a rifle and killed him. Underwood has surrendered.

## ST. PETERSBURG PEOPLE FORBIDDEN TO BUY WEAPONS OF OFFICERS.

ST. PETERSBURG, Sept. 14.—A proclamation has been posted throughout St. Petersburg again prohibiting the sale of revolvers or ammunition to the public generally and also forbidding army officers to purchase revolvers or ammunition without permission of their superiors. The orders recently issued forbidding the sale of arms or ammunition in the open markets were partly ignored yesterday and the authorities searched the markets, confiscated all the arms and ammunition for sale and fined the dealer.

**Traveling Passenger Agents.**  
PORTLAND, Sept. 14.—The thirty-fourth annual convention of the American Association of Traveling Passenger Agents assembled at the Lewis and Clarke grounds today. The principal feature of the convention will be the election of officers. C. E. Benjamin, now vice president, is slated for the presidency. Benjamin is traveling representative for the Canadian Pacific, with headquarters at St. Louis.

We wish to thank our friends, especially the Foresters of America and the Woodmen of the World, for the kindness and sympathy tendered us in our late bereavement.

## INDIAN PROPERTY SUBJECT TO TAXES THE COUNTRY OVER.

OMAHA, Neb., Sept. 14.—Judge Munger in the United States District court today handed down a decision in which he declared that the Indian trust funds, or hereditary lands, to which Congress has given a regular title and funds deposited in banks to the credit of Indians coming from the sale of these lands, are taxable the same as the property of any other citizen. The decision is an important one, as it affects a great amount of Indian holdings all over the country. The last act alone represents taxes of \$75,000 funds in bank to the credit of Omaha and Winnebago Indians.

## NO DISORDER AT THE FUNERAL OF PRINCE AMILAKHOVRI.

TIFLIS, Caucasus, Sept. 14.—The body of General Prince Amilakhovri, former governor of Baku, was brought into the city by troops today and buried without disorder, occurring. The late prince was regarded with bitter hatred owing to the harsh measures which he adopted when he was sent on a special mission to pacify the Caucasus. The revolutionists threatened the local priests with death if they attempted to offer prayers over the body and one dared to approach the house. Troops were eventually dispatched to bring the body to Tiflis and it was feared that disorders would occur at the funeral.

## CONFERENCE ON RIVER PROJECTS

FEDERAL COMMISSION RECEIVED SOME SUGGESTIONS.

Authorities on Sacramento River Needs and Plans Urged that Congress Should Be Liberal.

SAN FRANCISCO, Sept. 14.—A meeting of the representatives of federal, state and private interests which may mean the beginning of the expenditure of millions for the improvement of state waterways and the abatement of many of the existing flood evils was held this morning at the rooms of the Chamber of Commerce. It was a public conference between the federal commission of engineers authorized by the last congress to investigate drainage and reclamation projects in California, the state board, recently elected from various districts to assist in the furtherance of the investigation and the River Improvement and Drainage Association of California.

The end toward which the conference directed itself was the co-ordination of effort on the part of the federal government, the state and the private land owners to improve the arterial drainage of the Sacramento valley and the navigability of the Sacramento river. A commission of United States engineers, consisting of Colonel William H. Heur, Colonel Thomas H. Hart, and Captain William W. Hart, has been making a complete inquiry into the conditions existing along the Sacramento river and tributary streams with a view toward the installation of government works on a large scale. They have already held three meetings at which written communications were received and the present session was devoted to urging the necessity of immediate and radical action to relieve the menace which the Sacramento river now constitutes.

William Hamball, formerly state engineer and a member of the state improvement and drainage association, read a paper in which he declared that it was incumbent on the government to assist very materially in the vast work which should be begun.

After Colonel Heur had invited suggestions from those who were present at the meeting, John W. Ferris was the first to respond. He pointed out that the carrying capacity of the Sacramento river was deteriorating at a tremendous rate, that over 100,000,000 cubic yards in its channel was rendering it less and less able to carry off its flood waters.

P. J. Van Lobensels considered what it was practicable to do and insisted that as the government had been generous in moving the Mississippi it should realize the needs of California.

While many of those interested believed that the government, the state and private individuals should share and share alike in the enterprises, he thought that the government should shoulder at least half the expense. He declared that if the government would appropriate between \$2,000,000 and \$3,000,000 other interests would follow the lead with equal funds. He urged that the enterprise be confined to navigation and drainage work and that the reclamation of private lands be reduced to a minor interest.

Other speakers were M. Bosqui, M. G. Kingsley, W. D. Parks, of Madera and C. H. Bull of Yuba and Placer. The meeting then adjourned.

The members of the federal commission will receive communications relative to the subject under discussion for the next two days, and will begin their report to be submitted and sent to Washington.

**Speaker Cannon's Persiflage.**  
Speaker Joseph Cannon, in response to a toast at a recent dinner, began his remarks by asking to create the initial laugh which is so much desired by orators as a preparation for weightier matter to follow.

"Astronomers tell us," he began, "according to the gentleman who has just sat down, that an express train moving 100 miles a second would consume several million years in reaching a certain star."

## CONGREGATIONAL FOREIGN MISSIONS

ANNUAL MEETING OF BOARD OF COMMISSIONERS.

The "Christian" Who Gives One Dollar for Missions and Two for a Necktie.

SEATTLE, Sept. 14.—The ninety-sixth annual meeting of the American Board of Commissioners for Foreign Missions of the Congregational church opened here this afternoon in Plymouth Congregational church.

The visitors were greeted at the opening session by the Rev. M. M. Freedland, for years identified with the churches of the Pacific Coast, and response was made by Dr. Samuel B. Capen of Boston, the president of the board, who said:

"If we can Christianize China and Japan we shall change the whole content of Asia. Yea, more, they will mightily influence Europe from the East. Certainly it behooves us not only to treat Japan, but China as brethren. We must feel that in many ways our treatment of the Chinese had been most unworthy and self-interest, as well as religion, bids us change our methods. It is only right that we should put them in every way on the same basis as other nations. We have only ourselves to blame for the anti-American feeling which within a few months has been developing so rapidly in China. It is not to our credit that we have to be taught to do right because our pocketbooks are injured."

"The church grows slowly in this country because so many Christians are indifferent in foreign missionary work. Our inadequate support of this work reacts and hinders our own growth. What does the world think of the Christian if a man who gives \$1 for foreign mission and \$2 for his necktie and \$3 for a choice seat at an evening entertainment? We shall never have the great religious awakening for which so many are praying and longing until we get out of our selfishness and put in our money until it gains something for the sacrifice. I am glad to believe that we are gaining in many directions. The idea of stewardship is getting hold of men and we must not hinder it in any way."

After organization was effected, Treasurer Frank H. Wiggins read the report of the treasury department and the report of the auditors of the board was then submitted.

The report of Treasurer Wiggins contained the following: "The total receipts for the year ending August 31, were \$752,149. Not included in this amount, because given for specified purpose, was the gift of \$55,000 from John D. Rockefeller in part payment for a pledge of \$100,000 for educational work for institutions allied with the board. Treated in the same way was a gift of \$5000 from Frank Vanderpool for a new building in connection with St. Paul's Institute at Tientsin. If these two sums were added, the total amount from the receipts would be \$812,149."

"The total disbursements, including the gifts of Mr. Rockefeller, and Vanderpool, were \$905,930, and the excess of expenditures above receipts was \$163,790, which, added to the debt of the previous year of \$22,737, makes a debt carried over to the account of the new year of \$176,527."

The cost of maintaining the work abroad has been materially increased, the necessity for part of the increase being unavoidable as it could not be foreseen.

"The amount of conditional gifts received was \$34,730, the conditional gift fund now amounting to \$491,713, a growth of \$20,430. The Twentieth Century fund now amounts to \$136,178 and conditional pledges are in hand which will swell it to about \$144,000."

The annual survey of all the missions of the board was next submitted by the foreign secretaries, Rev. James H. Barton, D. D., and Rev. Judson Smith, D. D. Dr. Barton spoke at length on the work of the board and about immediate needs.

A strong sentiment has been expressed among the members of the board against the resolution drafted by Dr. Washington Gladden to present to the convention in his fight against "tainted money." The resolution has not been presented to the convention but the general sentiment is that the tainted money would be lost by an overwhelming majority if presented.

In view of the sentiment expressed by the members, it is impossible to state what action will be taken by Dr. Gladden, who has not reached the city as yet.

In outlining his position on the question of tainted money, chairman of the prudential committee, said: "I do not know what Dr. Gladden proposes to do. The incident is really closed, though of course the question can be brought up under the head of new business or can be interjected at almost any time. We are bound to consider the matter proposed, no matter how radical or how absurd it might be."

"But every one, almost, save Dr. Gladden, considers that matter settled. A canvass of the 300 members of the board, showed a short time ago that 80 per cent of the members were opposed to Dr. Gladden's position. If he brings up the question it will be quickly disposed of."

Most of the time of the board during the conference will be taken up with the consideration of the question of maintenance of foreign missions. According to the statement of Whitcomb there was a deficit at the end of the last fiscal year of \$150,000 and the question of financing the 600 missions the board has in the field will be the most important matter to consider.

## PROPOSAL TO UNITE WEST INDIAN COLONIES MEETS WITH OPPOSITION.

KINGSTON, Island of St. Vincent, Sept. 14.—The British government has issued a notice proposing a measure to unite the colonies of Grenada and St. Vincent, to form a single colony. The proposal has met with strong opposition locally. Any attempt to force a bill to this effect through the legislature will cause serious disaffections. A similar attempt in 1891 created a disturbance necessitating the presence of a British garrison to restore order.

## LOCAL MARKETS.

**FRUITS AND VEGETABLES.**  
Limes—15c per dozen.  
Strawberries—12½c box.  
Pears—4c per lb.  
Apples—5c per lb.  
Peaches—3c per lb.

Green Beans—10c per pound.  
Summer Squash, 3 lb for 10c.  
Green Peppers—10c per lb.  
Tomatoes—5c per lb.  
Artichokes—5c for 25c.  
Cabbage—2c lb.  
Cauliflower—10c a head.  
Okra—10c per lb.  
Egg Plant—5c each; 3 for 10c.  
Onions—2c per lb.  
Pumpkins—2½c per bunch.  
Beets—2½c per bunch.  
Carrots—2 1½c per bunch.  
Cucumbers—20c per dozen.  
Lima Beans—10c lb.  
Nuts—20c per lb.  
Dates—15c per pound.

**Poultry.**  
Chickens—Broilers, \$3.50 to \$4.50 per doz.  
Chickens—Fryers, \$4.50 to \$5.50 per doz.  
Chickens, old, 8c per dozen.  
GRAIN.  
Wheat—\$1.80.  
Barley—\$5 to \$5.50; \$24 ton.  
Corn—\$2.  
Rye—\$1.35 to \$1.45.

**MILLSTUFF.**  
Fresno Flour—\$1.35 to \$1.45.  
Viable Flour—\$1.45 sack.  
Stockton Flour—\$1.45 per sack.  
Bran—90c per sack; \$24 per ton.  
Barley—5c.  
Wheat—\$2.40 per sack; 34/35c.

**CEREALS.**  
Corn meal—35c per 10-lb sack.  
Graham meal—35c per 10-lb sack.  
Whole wheat flour—35c per 10-lb sack.  
Cracked wheat—35c per 10-lb sack.  
Oat meal—40c per 10-lb sack.  
Rye meal—35c per 10-lb sack.  
Lard—12½c per lb.  
Cracked hominy—15c large or small.

**BUTTER AND EGGS.**  
Creamery—45c per roll.  
Dairy—35c per roll.  
Eggs—30c per dozen.

**FRESH MEATS.**  
Beef Steak—10 to 15c; roast 10 to 15c.  
Mutton—8 to 10c per lb.  
Lamb—12½ to 20c per pound.  
Pork—10 to 12½c per lb.  
Veal—10 to 20c.  
Lard—12½c per pound.

**DRESSED STOCK.**  
Steer—5c per pound.  
Cow—4½c.  
Veal—7 to 8c per pound.  
Mutton—7c per pound.  
Lamb—9c per pound.

**MISSOURI DAY AT THE FAIR**

GOVERNOR FOLK WAS GUEST OF HONOR.

"The Mother of Oregon" Was the Subject of Oratory and Pyrotechnical Display.

PORTLAND, Sept. 14.—Hundreds of persons who hail Missouri as their home and thousands more eager to see and hear the man who cleansed Missouri of corruption, assembled in the auditorium of the Lewis and Clark exposition to do honor to the parent state of old Oregon and the chief executive who represents her.

Long before the hour at which the exercises commenced the large building was overcrowded, and when Governor Joseph W. Folk, accompanied by Governor George E. Chamberlain of Oregon, and by municipal and exposition officials, appeared on the speaker's stand he was received with round upon round of applause.

Following exercises at the auditorium a public reception took place at the Missouri state building in honor of Governor Folk and the visiting Missourians, the Missouri commission and their ladies acting as hosts. A banquet was tendered to Governor Folk, Commissioner E. K. McInnesy presided. Speeches were made by former United States Attorney General George H. Williams of Portland, Judge W. D. Fenton, Commissioner Fern, President Goode and Governor Folk, whose subject was "Missouri, the Mother of Oregon."

During the banquet a special display of fireworks on the exposition lake took place, in which many pyrotechnic emblematic of Missouri or depicting her prominent men were features.

**SILVER HEELS.**  
New York is Wild Over It Frisco Says—Beat Yet.

The famous composer of "Hiawatha" has written another intermezzo whose fame will be handed down to posterity along with his first great success. "SILVER HEELS" is not quite so "Indian" as the name would imply. The first strain is an absolutely new theme, treated in a very artistic manner, the kind they will whistle. Following that, a few bars of real tom-tom Indian music, then, dolefully, gracefully, into an exquisite strain such as Neil Moret is famous for. The title page on "SILVER HEELS" is a work of art, being reproduced from the original painting at a great expense, in six colors. This latest hit may be had at Currier Music Store, 1010 J street, on Saturday only, September 15, 1905, (special sale day) at 15 cents the copy. Thereafter 25 cents the copy.

List your ranch or city property, you wish to sell, with Chappell & Smith, 1928 Mariposa street, in Postal Telegraph room. Telephone Main 531.

## BECOMING A MOTHER

Is an ordeal which all women approach with a shudder, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at \$1.00 per bottle. Book containing valuable information free.

## AN INSURANCE DEFENSE.

The insurance investigation in New York has uncovered a surprising amount of truth, but nothing more surprising than the defense of secret accounts and subsidiary syndicates by Frederick Cromwell, treasurer of the Mutual Life Insurance company. According to Mr. Cromwell the business of the companies has grown so enormously that it is impossible to find investments directly for a hundred millions or more a year. Therefore, since large purchases of bonds and stocks are usually made by syndicates, it is necessary for the insurance companies to be represented in these syndicates.

This is the usual excuse—"It has to be done." Corporations buy legislation. They need the legislation, and can only get it from corrupt legislators by purchase. Trusts violate the law of combinations—the combination is necessary and since it cannot be made legally it must be done illegally. Railroad grants and shippers obtain rebates, because they have to have them. Reformers join with the push, on compromising terms, because they must win. Unions resort to indefensible boycotts and closed shops, because there is no other way to get what they want. And it never occurs to any of them that they might do without what they want, if the only way to it is across the prohibitions of the law. It is not necessary for a growing corporation to get the privilege needed for its further growth. It can stop growing. It is not necessary to form illegal combines and get illegal rebates. The business that cannot survive without these things can quit. It is not necessary to compromise with the push to escape defeat, for defeat does not have to be escaped. If a given union purpose can only be obtained by boycott, it is always possible not to obtain it. And if life insurance companies are growing so big that they can not find legal investments for their funds, they can at least stop growing. Indeed the very fact that these trust funds have to be used in speculation indicates that they have grown too large. The law against speculative investment of life insurance funds is a good one, and it should be obeyed, even if its obedience puts a stop to the growth of insurance companies beyond a certain size. It is more important that each policy holder be safe than that a few companies monopolize the business of insurance.

Besides, even if Mr. Cromwell's argument for the necessity of these syndicate transactions were true, it does not follow that the use made of these syndicates can be justified. It does not follow that an insurance company, forbidden to invest in certain securities, has a right to subincorporate itself under another name and invest in them. It does not follow that the officers of an insurance company have the right to incorporate themselves into a trust company, make the investments of insurance funds through that company, and then keep the profits of the transaction for their personal benefit. It does not follow that illegal securities should be sold, the day before an insurance report, and bought back the day after, in order to falsify that report. It does not follow that a million dollars in securities, which are not a legitimate direct investment for the company, are a legitimate collateral security for its investment in a million-dollar note, signed by a \$50 a month messenger. It does not follow that part of the assets of the company may be recorded in its legal ledger, and another part be kept on a private card ledger, any card of which can conveniently disappear before an inspection or investigation. All these things have been shown to be common practices of the companies so far investigated. Even Treasurer Cromwell, who propounded the "defense of necessity," testified that he had himself made large personal profits out of transactions in syndicates subsidiary to his company. These profits were not necessary, and it will be hard to show them legitimate.

It is becoming increasingly imperative to put these companies under the sort of supervision that will supervise. The laws should impose only the necessary limitations on the investment of insurance funds, but these limitations, when determined must be enforced, even if they should make the future growth of the largest companies impossible. This result is hardly likely, but even it should not be flinched from.

As the Republican predicted at the time, the W. C. T. U. has heard of the case of beer that a newly opened Milwaukee brewery sent to President Roosevelt, and whose arrival Secretary Loeb, in the president's absence, acknowledged. The Allegheny county Pennsylvania, W. C. T. U. has just heard of the incident, and will send a letter to the president, asking him whether he got that beer. As the president probably does not know whether the beer arrived or not, and perhaps never heard of it, it is difficult to know what answer he can give. But that is, of course, not what the good ladies of Pittsburgh want to know. They are not interested in one particular case of beer more than another. What they want to know is whether President Roosevelt drinks beer, and if he does, to pass resolutions condemning him. And on this their curiosity can be easily satisfied. President Roosevelt does drink beer—but rarely. He prefers wine.

## PATENT BOOZE.

The Commissioner of Internal Revenue has issued an order which will spread consternation in the ranks of certain patent medicine manufacturers. It is ordered that those medicines which contain alcohol, at least as a solvent and preservative, and in the doses in which active remedies are given, there can be no objection, even from the most extreme temperance standpoint, to the few drops of alcohol incidentally taken. But there is another and very infamous class of medicines, which consist of whiskey, or other distilled liquor, and of practically nothing else. These medicines are sold under false pretenses, when they are sold as remedies for disease, or as having any medical qualities other than the familiar ones of alcohol. Alcohol is a useful remedy, in its place, but it should be taken by those who know what they are taking, and it needs no disguise or false name. To foist bad whiskey on persons of temperance principles is a moral imposition, and to permit non-temperate patients—the very class most liable to become drunkards—to dose themselves habitually with some patent nostrum, until they get the habit, not knowing until too late that it is the whiskey habit they are getting, is a very dangerous abuse.

The new regulation proposes to set aside all subterfuge. The more allegation that other wonderful remedies are incorporated with the whiskey will not go. If the alleged remedy is such as to be undiscoverable by chemical analysis, if it is in such infinitesimal quantities as to have no effect on the disease for which it is recommended, or if in larger quantities it is not of a sort to have any medicinal effect, then the medicine is to be construed as flavored whiskey, which it is.

Even from the standpoint of the legitimate patent medicine business, this recent crusade against patent medicine frauds can do nothing but good. The public is of course entitled to be protected against these frauds, whether it hurts the medicine business or not. But it will not hurt it. The very fact that a medicine is not put under the ban will come, in time, to be regarded as a guarantee that it has some actual medicinal effect, at least approximating the claims made for it. The question of the propriety of self-prescribing, even of good remedies, will be no more serious than before, and the assurance that the remedies sold are actually remedial will increase confidence. As to the ignorant argument, made on behalf of the fake nostrums, that their remedy is some unknown and wonderful substance, undiscoverable by chemical analysis, or that quinine and rhubarb put up under a mysterious name are radically different from the same substances under their own names, of course no attention need be paid to it. The people who can be fooled by such argument are the very ones who need the guardianship of the law. The composition and remedial effect of a medicine are ascertainable facts. Because they are ascertainable, but not by the consumer, it is necessary and proper for the guardians of the public welfare to ascertain them, for the consumer's information and protection. And when a new brand of cocktail is put out, it should be sold for what it is, and not as a medicine.

## INCENDIARISM IN AN IDAHO TOWN

### BUSINESS CENTER OF GRANGEVILLE WIPED OUT.

Two Hundred Thousand Dollars Damage—Flames Were Seen Distance of Ten Miles.

GRANGEVILLE, Idaho, Sept. 14.—Fire swept the heart of the business district at an early hour this morning and before the flames were extinguished a loss of approximately \$200,000 was credited to a fire bug.

The citizens awoke last night shortly before 7 o'clock when the alarm was given by a fire with remarkable rapidity the fire leaped from building to building until the flames were plainly visible at Denver, ten miles away. Telephone communication was soon destroyed, but the fire itself answered the purpose of summoning help and fire fighters came for miles around.

The heaviest loser was the mercantile firm of Alexander and Friedrich, their loss being estimated at \$90,000, of which \$75,000 was on stock and \$15,000 on building. The Jersey house, the largest hotel in the town, was also burned, entailing a loss of about \$30,000.

The principal losses are: Jersey House, \$30,000; Basler building, \$10,000; H. E. Mattison, general merchandise, \$20,000; D. B. Wilson, saloon, \$30,000; A. L. Lingham, liquor store, \$20,000; E. H. Shaffer, drug store, \$20,000; Alexander & Friedrich, general merchandise, \$90,000.

A THOUSAND MINISTERS ATTEND A MATINEE AT A CHICAGO THEATER.

CHICAGO, Sept. 14.—A ministerial matinee was held at McVickers' theater here today by invitation of William A. Brady and Joseph R. Grismer, for the ministers of all denominations to witness a performance of "The Yow." Written by Rex John Snyder, and the first play written by a minister ever presented on an American stage. There were over 1000 ministers at the matinee, which was given exclusively for them, the theater being closed to the paying public.

## From Valley Papers

So far as we know, Bakersfield is the pioneer in the direction of separating the sexes in the grammar schools, but it may reasonably be expected that the elementary and secondary schools of the state will generally accept this idea within the next few years. There are too many common sense reasons that favor it to permit of any other conclusion.—Bakersfield Californian.

Visalia needs more houses to accommodate the people who want to make their homes here. Yesterday three heads of families were hunting places in which to reside temporarily, but were unable to find suitable locations. Two will build houses, but must find places to reside in the meantime.

The "Times" has often called attention to the lack of houses in Visalia and it is strange that men who have money in savings banks drawing 3 per cent interest do not supply the demand for homes in Visalia. Good rent is easy to obtain and the value of lots is increasing all the time. A hundred modern dwellings would be occupied as fast as they could be built.

There is plenty of money in the Visalia banks that ought to be used in building houses and the "Times" suggests that the owners of said money open their eyes and improve the opportunity for profitable investment.—Visalia Times.

That there is a great future in store for Madera is certain. With the thousands of acres of good land in this county and plenty of water for irrigation there is no reason why Madera should not be in the front rank of counties. It will not be long before ways will be devised for bringing water on these thousands of acres of land. Even in those parts of the county where it is impossible to irrigate, pumping plants will solve the problem. Of late years many pumping plants have been installed and have more than paid for themselves in the increased output of the land.

Not alone in its farming land lies the wealth of the country for its forests of first class timber are producers of great revenue. The mines of the county are rich, and the day is not far distant when the inexhaustible mines that have lain dormant for centuries will be made to yield up its treasures.—Madera Mercury.

A commendable move was started in this part of the state when thirteen small Sequoia Gigantea were secured in the Sequoia National Park, where they will be set out and an effort made to get this giant of the country started in that part of the country. There are no trees that should receive more attention from the hand of man than the magnificent Sequoias. They stand as monuments marking the ages for generation and generation back and an effort should be made to plant and preserve them wherever they can be made to grow.—Porterville Messenger.

Issue No. 2 of the Visalia Daily Courier made its appearance in Tuesday morning, many copies being gratuitously circulated. The Register has not seen a copy of the first issue, and thus does not know what policy the paper has outlined for itself. It is taking its suggested Press dispatches, and if it succeeds in getting its way in working them into sensation form it is doing its morning it will soon be a rival to the Examiner. Across the first page was this big line: "Ghastly Traffic in Human Bodies," and beneath it is a dispatch telling how the bawdy New York Life Insurance company sold 800 souls in one day and bought them back two days afterwards. The Fresno Republic gives the same dispatch, but instead of making the insurance company sell two or three carloads of human bodies it seemed to be satisfied with letting it go at \$800,000 in bonds. The Republic will have to get a move on if it expects to hold the Tulare field.—Tulare Register.

A press dispatch from Honolulu says that a Chinese woman, wife of a Chinaman, gave birth to seven infants, within a period of two or three days. A boy and five girls. The previous child birth record of the Chinese exclusion law has been rigidly enforced.—Merced Star.

It appears to the News to be a shortsighted policy that will refuse to levy an advertising tax of 2 cents because the rate is temporarily high, when by virtue of the effects of the tax levy people will come here to assist in raising the assessment roll and consequently assist in the payment of taxes and reduce the rate in a few years, at the same time leaving the county with various improvements.—Modesto News.

Continued reports are coming in from the East regarding the record sales being made of California oranges. One car recently sold for \$1900.13 and the car contained but 75 boxes of fancy fruit. Another car came up of "choice and run" fruit, much of which was poor quality, sold for \$1522.70 and another car averaged \$6.65 per box. All of this tends to show the superiority of our fruit and the demand for it in the East.—Porterville Messenger.

There is room in this county for hundreds of families who can make a good living on the fertile lands. The price of land is cheaper than that in any other county in the state, quality and situation being considered. If you have friends in the blizzard swept East tell them of it and help them get some enjoyment from life. They will make more or less work and live happier than they are doing now. Tell them about Madera county.—Madera Mercury.

Every few weeks or months it is the habit of afternoon papers to bolster up their pretensions by asserting that they are superior to morning papers because they furnish news that does not happen every few days. The afternoon papers demonstrate a contradiction of their own claim. Yesterday, for instance, the two chief items of interest among day events were the confession of Bunk Brum on the stand in the boodler trial, and the statement of Cromwell in the insurance investigation. The afternoon papers, which make such frequent claims of publishing news the "day it happens" failed to report these items. The morning paper gives the summary of a day's news complete.—Stockton Independent.

Things are looking prosperous for the raisin grower. The price for raisins today is \$82 a ton in the southwest. That is 4 cents a pound, and that is good. In fact one grower stated today that he hoped for the benefit of the industry that the price would remain at that level for the remainder of the season. It leaves good money for the grower. It looks to the Sentinel that at last the foundation for a steady and profitable business in raisin grape

growing has been found.—Hanford Sentinel.

The Herald is sure that upon sober second thought those who are opposed to the advertising tax will see its manifest justice, and that it is the most equitable way of hastening the end to which our empire builders are working.—Modesto Herald.

Premature Blast Did It. RIVERSIDE, Cal., Sept. 14.—William Evans, a white man, and Union Ramon, a Mexican, were fatally injured by the premature explosion of a blast at the Casa Blanca rock quarries today. Evans' eyes were destroyed and his face and shoulders were terribly lacerated. The Mexican also was also blinded and cut about the body. One of the flying stones struck Evans in the neck and the blow will prove fatal.

MISS ALICE ROOSEVELT GRACIOUSLY RECEIVED BY DOWAGER EMPRESS

PEKING, Sept. 15, noon.—Miss Alice Roosevelt, Mrs. Roosevelt's wife, of the American minister, Mrs. Newlands, wife of United States Senator Newlands, and other ladies of Miss Roosevelt's party went to the summer palace Wednesday and spent the night. Yesterday they were received in formal audience by the dowager empress. Mrs. Roosevelt was introduced Miss Roosevelt first and afterward the other ladies of the party.

The empress moved among the visitors, chatting informally and presenting them with handsome gifts of bracelets and rings. This was followed by an inspection of the grounds of the summer palace. The whole visit was remarkable on account of the absence of formality.

Returning to Peking in the evening most of the party attended an "at home" at the German minister's, where General Corbin and wife and Senator Newlands and wife were being entertained. The party spent the day seeing the sights of Peking. Tomorrow all will go to Tientsin to attend a reception given by Tien-yun Shan Kai.

SLEEP COMFORTS.

Little Pillows and Fine Blankets a Great Help for the Sleep-Hungry.

"The little head pillows should not be regarded as a luxury, to be had by a few, but a necessity, to be had by everybody," insists a doctor whose fad, if it can be called a fad, is that people should be comfortable as they sleep.

"Most people exclaim to me, 'Why are we comfortable when we sleep?' but I know better. They can't get good sleep because they are not comfortable, which brings a strain at the neck."

"Unconsciously people seek to avoid this neck strain by bolstering their head with arm or hand, by bumping the pillow about the head, by attitudes that throw the whole body into a stiffness that does not permit perfect relaxation."

"Little head pillows obviate all this strain. It is not a fad to have two or even three to tuck about one's neck and back to relieve the slightest effort against absolutely relaxation."

"I never knew what peace was till I tried your idea," one of my patients told me. "I never waked up in the morning without a strain of more or less annoyance to me in my neck, for through all my life I never have been able to get perfectly comfortable in bed. Now I tuck my little wedge pillows, as I call them, about me, and never bother about comfort, for I am simply surrounded by it."

"Speaking of comfort in sleep, why are most people so hard on themselves in the matter of blankets? People who can have plenty of luxuries will stint themselves in the quality of their blankets, purchasing for themselves those that are for the most part of cotton—heavy, unyielding coverings that settle down like a weight of lead upon one, tiring out limbs all through the night. It's warmth that one wants from blanket covering, not weight. Every ounce of weight on the body as it sleeps is an ounce of something to be deplored."

"Let it be a matter of luxury, if you will insist upon calling necessities for health luxuries, to put a lot of good money in blankets. You'll have to put in a lot of money, for the fine blankets are expensive."

"A very fine blanket carefully cared for at wash times and at moth seasons, may give a cheap blanket by so many years that there is absolutely no comparison between the two. It is a good solid part of one's twenty-four hours is spent in sleep. Upon the length of that sleep and upon the quality of it depends your vitality in your waking hours. The excellence of your sleep, the thoroughness of your sleep, can depend well unless you sleep comfortably."

ONE MORE IN THE CABINET.

President Will Ask Congress to Create Department of Mines.

It is understood that President Roosevelt, in his message at the opening of Congress, will urge that body to create a department of Mines, with its head a member of the cabinet. A bill for that purpose is to be introduced on the first day of the session. Only four persons, the heads of the State, Treasury, and War departments, and the Attorney General, sat down at President Washington's council table. A secretary of the Navy came in John Adams' time; a postmaster general in Jackson's days; a cabinet grade in Lincoln's days; and a Secretary of the Interior in Taft's Presidency. Those seven officials constituted the President's official advisers until long after the civil war. A Secretary of Agriculture was created in the latter part of Cleveland's first term, and a Secretary of Commerce and Labor came two years ago. Thus the Cabinet, which started out with four members, had a half dozen and ago has been increased to nine. If Roosevelt gets a Secretary of Mining he will have obtained two new Cabinet departments, which will mean that he has broken the Presidential record in a new place.—Leslie's Weekly.

Blanche's beloved, Bertram, beheld Beatrice. Blanche, being blonde, bashful, blushing, became blabbery, blab, beside Beatrice, Beatrice being big, bold, brilliant, brimstone. Beatrice beguiled Bertram. Bertram, bewildered, bewitched, bewitched by beautiful Beatrice, behaved badly by Blanche, becoming Beatrice's beauty. Blanche bore banishment bravely. Bertram bought bawbles, bedecking Beatrice barbarically. Bertram became bankrupt, beggared. Beatrice basely betrayed Bertram. Bertram besought Blanche. Blanche brought Bertram back. Blanche bade bygones be bygones. Bertram: bridegroom; Blanche, bride. Bridesmaids, Bertram, Blossoms. Bishop, Bells, Boisterousness. Banquet, Ball, Bridal tour. Beatitude. Boundless bliss.

Alliterative Romance.

## CHRISTIAN CITIZENSHIP.

In its issue for September 2, Collier's published an inquiry into "Christian Citizenship" by an author, who, the editor says, is "A great creative artist whose reasons for anonymity seem sufficient to us as to himself." This great creative artist asks: "Is there such a thing as Christian Citizenship? No," he says, "but it could be created."

In his issue for September 2, Collier's published an inquiry into "Christian Citizenship" by an author, who, the editor says, is "A great creative artist whose reasons for anonymity seem sufficient to us as to himself." This great creative artist asks: "Is there such a thing as Christian Citizenship? No," he says, "but it could be created."

If Christians should vote their duty to God at the polls, they would elect every election, and do it with ease. They would elect every candidate in the United States and defeat every would-be. Their prodigious power would be quickly realized and recognized, and afterward there would be no unclean candidates upon any ticket, and great would cease. No church organization could be in the country that would elect men of foul character to be its shepherd, its treasurer, and superintendent of its Sunday School. It would be revolted at the idea; it would consider such an election an insult to God. Yet every Christian congregation in the country elects foul men to public office, while quite aware that this is a sin, and open and deliberate insult to God, who cannot approve and does not approve the placing of the liberty and the well-being of His children in the hands of infamous men. It is the Christian congregations that are responsible for the filling of our public offices with criminals, for the reason that they could prevent it if they chose.

They could prevent it without organizing a large church, without a platform, without making any speeches, or passing any resolutions—in a word, without concert of any kind. They could accomplish it by each individual resolving to vote for God at the polls—that is to say, vote for the candidate whom God would approve. Can a man imagine such a thing as God being a Republican or a Democrat, and voting for a criminal or a blackguard master because party loyalty required it? Then can we imagine that a man can improve upon God's attitude in this manner, and by help of professional politicians invent a better policy? God has no politics, but cleanliness and honesty, and it is good enough for men.

A man's second duty is to his family. There was a time when a clergyman's duty to his family ranked higher than his congregation's political slave, and vote his congregation's ticket in order to safeguard the food and shelter of his wife and children. But that time has gone by. We have the secret ballot now, and a clergyman can vote for God. He can no longer plead with his congregation to do the like.

Perhaps we can not be sure. The congregation would probably inquire whom he was going to vote for; and if he stood upon his manhood and answered that they had no Christian right (which is the same as saying no moral right, and, of course, no legal right), to ask the question, it is conceivable, that they would dismiss him, and be much offended at his proposing to be a man as well as a clergyman.

Still, there are clergymen who are so situated as to be able to make the experiment. It would be worth while to try it. If the Christians of America could be persuaded to vote God and a clean ticket, it would bring about a moral revolution that would be incalculably beneficial. It would save the country—a country whose Christians have betrayed it and are destroying it.

The Christians of Connecticut sent Bulkeley to the Senate. They sent to the Legislature the men who elected him. These two crimes they could have prevented; they did not do it, and upon them rest the shame and the responsibility. Only one clergyman remembered his Christian moral duty to his duty to God, and stood bravely by both. Mr. Smythe is probably an outcast now, and such a man as that can endure ostracism; and such a man as that is likely to possess the treasure of a family that can endure it with him, and be proud to do it. I kiss the hem of his garment.

Four years ago Greater New York had 100 tickets in the field; one clean, the other dirty, with a single exception. One-half of the Christians voted for that foul ticket and against God and the Christian code of morals, putting loyalty to party above loyalty to God and honorable citizenship, and they came within a fraction of electing it; whereas if they had stood by their professed moral principles and voted for the clean ticket, Christianity would have triumphed. It is on trial now. And nothing important is on trial except Christianity.

It was on trial in Philadelphia, and failed; in Pennsylvania, and failed; in Rhode Island, and failed; in Connecticut, and failed; in New York, and failed; in Delaware, and failed; in every town and county and State, and was recent and it is still effectively busted. It is to its credit that it has effectively busted itself with the small number of charity and benevolence, and has looked so different while its country was sinking lower and lower in repute and drifting further and further toward moral destruction. It is the one force that can save, and it sits with folded hands. In Greater New York it will presently have an opportunity to elect or defeat the straight, clean, honest men, of the sterling, honest, and some of the Tammany kind. The Christians of Greater New York, the Christians of the whole country, will decide the contest. It, and it alone, is master of the situation, and lord of the result.

INDIANAPOLIS, Sept. 14.—Alleging that David E. Sherrick, auditor of state, is guilty of "plain and execrable violation of the law and gross betrayal of public trust" in that he invested funds belonging to the state in private affairs, to the extent of about \$145,000, Governor Hanly today issued an executive order, in which he took cognizance of a vacancy in the office, and appointed Warren Bigeler, of Wabash, as his successor.

This in effect amounts to a removal of Sherrick by the governor, though the official statement is not made that way. The governor gave Sherrick until noon today to make his settlement. This was not done and the governor, after having asked for Sherrick's resignation three times, effected the removal. Sherrick has not been arrested as yet, and in his statement Governor Hanly did not say that such action was contemplated. Sherrick could not be seen at noon today.

In a formal statement Sherrick gave to the matter, the governor says he has investigated the conditions in the auditor's office since the last of August, having received information that Sherrick had not made the July settlement for the state's funds, which had accumulated from January 1 to July 1, 1922. He immediately asked for a settlement, which was made.

This amount was about \$235,000. In addition to this amount the auditor, in his statement to the governor, admitted that he was at that time chargeable with state funds paid in since the July settlement, amounting to \$145,197.30, for which he filed a schedule, enumerating the assets he had to meet this amount. These included notes, bonds, and securities amounting to \$152,333.33, of which, according to the governor's letter, only \$37,553.01 could be realized.

Big Doings on the 16th

Don't Forget The 16th

## FRIDAY SURPRISE SALE

Beginning today we inaugurate a series of sensational Friday surprise sales. The object of these sales being to force a large Friday business by offering staple merchandise at such remarkable low figures that thrifty buyers will find it detrimental to their best interest to stay away. Come today.

25c Colored Cashmere, 15¢

50c Silk Gloves, 39¢  
All colors, a good glove to finish out the season.

25c Wash Gloves, 19¢  
About ten dozen pairs we will close out at this price.

16th

DON'T MISS THE FUN.

At the time of his analysis of the assets submitted by Sherrick was made, the governor formally requested Sherrick to resign. The resignation was not forthcoming. The governor requested that Sherrick turn over to John F. Beal, the settlement clerk in the auditor's office, the securities enumerated, and this was done. The governor also demanded that settlement to the extent of \$145,197.30 be made with the state by noon today and on being advised by "persons whom he thought to be in a position to know" that the settlement could not be made, he again sent a message, this time verbal, requesting Sherrick to resign. At noon the request had not been complied with and it was repeated. Again not complied with, the governor entered an executive order finding the existence of a vacancy and appointing Bigeler.

Both Editor and Publisher Delighted. Magazine Publisher—We've got a great magazine this month. Magazine Editor—Yes, I think it's pretty good myself. That story of Scribner's is a corker. Magazine Publisher—Oh, I haven't read anything in your section. But just look at that! Two hundred and fourteen pages of advertising!—Somerville Journal.

Headquarters for Trusses. Is at Smith Bros. Drug Store, where the latest and best can be found at lowest prices.

Optical Repairing. We are specialists in repairing and fitting eye-glasses and spectacles.

There's nothing in this line that we can't do—and we know how to do it right. We carry a full stock of lenses and frames and all parts of frames, and can replace or fix any part of your glasses in quick order.

We have had a long and successful experience in filling prescriptions and fitting glasses and we positively guarantee all our work in the optical line.

WARNER'S. The Oldest Jewelry and Optical House in the County. 1929-31 Mariposa Street.

SCHOOL SHOES. Good Reliable School Shoes.

We can give you the best selection in Fresno. If you have never had satisfaction, try us. We can give it to you.

PHILADELPHIA SHOE STORE. Near Court House Park.

LOS ANGELES, Sept. 14.—Nothing can be learned in this city of Mrs. Gut Cuzner, who is reported as having died in Florence, Italy, leaving a large estate and who gave Los Angeles as her place of residence. None of the people of the same name residing here know anything of such a person.

Must Die on Scaffold. SAN FRANCISCO, Sept. 14.—Walter Warner, who murdered Maria Tamayo, in Santa Barbara, on June 10, 1904, must die on the scaffold. The supreme court destroyed his last chance of escape today by denying the petition for a rehearing. Warner will shortly be re-sentenced and executed.

To Our Customers—The Republican business office is open for business from 8 a. m. to 10 p. m. All advertising copy must be sent to the business office. None will be received in the editorial or composition rooms. Telephone Main 97.

A marriage license was issued yesterday to Manuel Balderama, aged 20 years, of Selma, and Rosa Bojorques, 18, of Clovis; William C. Pevevill, 24, and Edna V. Barkway, 22, both of Fresno; Frank Foster, 28, and Catherine Sarah Frances Lewis, 28, both of Fresno.

Quite a bunch of the copper colored tribe, in town yesterday to see the circus, was arrested for being drunk. Those jailed were Indian Jim and Soreneck Jim arrested by Sergeant DeVoe and Officer Walton; Jim Dick arrested by Officer Tom Coyle; Pasqual Thomas and Indian Jack by Officer W. H. Akers; Kings River Bill and Charley Aleck by Chief of Police White.

Laid in Her Grave.  
Mid many flowers the last rites were said yesterday in St. James' Episcopal church over the body of Mrs. Ellen Meade Bittle, whose demise has caused much sorrow among her friends. Rev. Harvey S. Hanson conducted the services at the church and at the grave. A choir sang "Rock of Ages," "Some Day the Silver Cord Shall Break," and "Nearer, My God, to Thee." S. J. Ashman, A. C. Roscoe, Charles Burleigh, W. C. Penn, Willis Pike and F. H. Miller were pall bearers.

Stopped Team in Time.  
Frank Kittrell stopped a runaway team yesterday and thereby probably prevented a serious accident. A crowd stood at the corner of J and Mariposa streets. A team in a delivery wagon belonging to Kutner, Goldstein Co. was dashing that way on J street. Kittrell jumped into the rear of the wagon as the frightened animals ran past Fresno street, secured the reins and brought the wagon to a standstill.

The Ladies' Aid Society of the first Baptist church met yesterday at the home of Mrs. Otis Turner, with thirty-one members in attendance.  
At the meeting previous, which was in June, the society had decided upon holding a rummage sale during the first week in October. Yesterday arrangements for this were completed. The sale is to be held from October 3rd to 6th.  
After the business meeting, the members enjoyed a social hour with the hostess, who served ices and cake.

## DEATH WAS INSTANT FIRE ALARM BOXES

WHIRLING WIRE CABLE ALMOST SEVERS HEAD FROM BODY.  
TEN NEW LOCATIONS TO BE FITTED SOON.

Walter Eaton Killed in Logging Camp Near Shaver Lake—Brown Inquest Today.

The breaking of a tense wire cable in the logging camps above Shaver lake yesterday caused the instant death of Walter Eaton. Eaton's head was almost severed from his body.

One of the cables operated by a donkey engine used in hauling logs onto one of the camps, snapped and its terrible whirl caught Eaton around the neck. Word of the tragedy was telephoned to the corner's office and yesterday afternoon at 2 o'clock Deputy Coroner Bean started for Shaver to hold the inquest.

Coroner Covarr was held an inquest on the body of James W. Brown at 10 o'clock this morning at Stephens & Bean's undertaking parlors. Brown was killed at the Fresno street crossing on Wednesday night.

Brown's funeral will be held today at 2 o'clock from the chapel of Stephens & Bean, under the auspices of the Ancient Order of United Workmen. Friends and acquaintances are invited to attend.

PERSONAL MENTION.  
Leland Barton is home after a short stay in San Francisco.

Max Kaehler of Los Banos is here on a visit and on business.

Miss Belle Ritchie, after visiting in San Francisco, is at home.

Mr. and Mrs. Boersing of Berkeley are down on a short visit with friends.

Mr. B. Bissell and family, after a month in and around Shaver, have returned.

Miss Urnie Higgins has returned from a three months' vacation in the High Sierras.

Miss Blanche Jackson, who attended the Native Sons' celebration in Sacramento is back.

W. C. Graves and wife and J. J. Graves and wife were among the Jamez people in town yesterday to view the circus.

Frank Kesler, formerly formerly a conductor on the Porterville branch, but now in business in San Francisco, is in town for a few days.

W. A. Sutherland and H. E. Barbour, the attorneys, left yesterday afternoon to attend to a law case they have set for today in San Rafael.

ATTEMPTED ROBBERY.  
Circus Porter Taken Into Custody by DeVoe.

Albert Powell, a negro porter connected with the Barnum & Bailey circus, was arrested last night by Sergeant DeVoe for attempting to rob James Dwyer.

Dwyer was drunk and was lying on the ground near one of the combination cars near the Ventura street crossing.

DeVoe was looking around for the drunken Indians, who had fallen by the wayside, and as he neared the car he noticed a man handling Dwyer in a rough manner. The sergeant approached the man and asked him what he was doing. He said he was putting Dwyer's hat on him, but at the hat was being about ten feet away from him. DeVoe thought something was wrong. He arrested them both, booking Powell for attempted robbery and Dwyer for being drunk.

Indian John was arrested last night by Sergeant DeVoe for taking on board too much fireworks during the day. The fireworks caused John to fall asleep in an alley and there he was found. When searched a revolver and a box of cartridges were found on him.

BAPTIST LADIES' AID.  
Rummage Sale to Be Held in the Month of October.

The Ladies' Aid Society of the first Baptist church met yesterday at the home of Mrs. Otis Turner, with thirty-one members in attendance.

At the meeting previous, which was in June, the society had decided upon holding a rummage sale during the first week in October. Yesterday arrangements for this were completed. The sale is to be held from October 3rd to 6th.

After the business meeting, the members enjoyed a social hour with the hostess, who served ices and cake.

Stopped Team in Time.  
Frank Kittrell stopped a runaway team yesterday and thereby probably prevented a serious accident. A crowd stood at the corner of J and Mariposa streets. A team in a delivery wagon belonging to Kutner, Goldstein Co. was dashing that way on J street. Kittrell jumped into the rear of the wagon as the frightened animals ran past Fresno street, secured the reins and brought the wagon to a standstill.

Laid in Her Grave.  
Mid many flowers the last rites were said yesterday in St. James' Episcopal church over the body of Mrs. Ellen Meade Bittle, whose demise has caused much sorrow among her friends. Rev. Harvey S. Hanson conducted the services at the church and at the grave. A choir sang "Rock of Ages," "Some Day the Silver Cord Shall Break," and "Nearer, My God, to Thee." S. J. Ashman, A. C. Roscoe, Charles Burleigh, W. C. Penn, Willis Pike and F. H. Miller were pall bearers.

## DEATH WAS INSTANT FIRE ALARM BOXES

WHIRLING WIRE CABLE ALMOST SEVERS HEAD FROM BODY.  
TEN NEW LOCATIONS TO BE FITTED SOON.

Walter Eaton Killed in Logging Camp Near Shaver Lake—Brown Inquest Today.

The breaking of a tense wire cable in the logging camps above Shaver lake yesterday caused the instant death of Walter Eaton. Eaton's head was almost severed from his body.

One of the cables operated by a donkey engine used in hauling logs onto one of the camps, snapped and its terrible whirl caught Eaton around the neck. Word of the tragedy was telephoned to the corner's office and yesterday afternoon at 2 o'clock Deputy Coroner Bean started for Shaver to hold the inquest.

Coroner Covarr was held an inquest on the body of James W. Brown at 10 o'clock this morning at Stephens & Bean's undertaking parlors. Brown was killed at the Fresno street crossing on Wednesday night.

Brown's funeral will be held today at 2 o'clock from the chapel of Stephens & Bean, under the auspices of the Ancient Order of United Workmen. Friends and acquaintances are invited to attend.

PERSONAL MENTION.  
Leland Barton is home after a short stay in San Francisco.

Max Kaehler of Los Banos is here on a visit and on business.

Miss Belle Ritchie, after visiting in San Francisco, is at home.

Mr. and Mrs. Boersing of Berkeley are down on a short visit with friends.

Mr. B. Bissell and family, after a month in and around Shaver, have returned.

Miss Urnie Higgins has returned from a three months' vacation in the High Sierras.

Miss Blanche Jackson, who attended the Native Sons' celebration in Sacramento is back.

W. C. Graves and wife and J. J. Graves and wife were among the Jamez people in town yesterday to view the circus.

Frank Kesler, formerly formerly a conductor on the Porterville branch, but now in business in San Francisco, is in town for a few days.

W. A. Sutherland and H. E. Barbour, the attorneys, left yesterday afternoon to attend to a law case they have set for today in San Rafael.

ATTEMPTED ROBBERY.  
Circus Porter Taken Into Custody by DeVoe.

Albert Powell, a negro porter connected with the Barnum & Bailey circus, was arrested last night by Sergeant DeVoe for attempting to rob James Dwyer.

Dwyer was drunk and was lying on the ground near one of the combination cars near the Ventura street crossing.

DeVoe was looking around for the drunken Indians, who had fallen by the wayside, and as he neared the car he noticed a man handling Dwyer in a rough manner. The sergeant approached the man and asked him what he was doing. He said he was putting Dwyer's hat on him, but at the hat was being about ten feet away from him. DeVoe thought something was wrong. He arrested them both, booking Powell for attempted robbery and Dwyer for being drunk.

Indian John was arrested last night by Sergeant DeVoe for taking on board too much fireworks during the day. The fireworks caused John to fall asleep in an alley and there he was found. When searched a revolver and a box of cartridges were found on him.

BAPTIST LADIES' AID.  
Rummage Sale to Be Held in the Month of October.

The Ladies' Aid Society of the first Baptist church met yesterday at the home of Mrs. Otis Turner, with thirty-one members in attendance.

At the meeting previous, which was in June, the society had decided upon holding a rummage sale during the first week in October. Yesterday arrangements for this were completed. The sale is to be held from October 3rd to 6th.

After the business meeting, the members enjoyed a social hour with the hostess, who served ices and cake.

## THE SUPERIOR COURT

### BERTIE FOREMAN DECLARES JOE DOES NOT PAY ALIMONY

And Joe is Cited For Contempt—Chit-  
tenden Wants Letters on Real  
Estate.

The bickerings and fightings of Bertie E. Foreman and her husband, Joe Foreman, are not still by an interlocutory decree of divorce. The wife has been cited to appear before Judge Austin to show why she has not obeyed the order of court directing that the husband have access to the care of the Foreman offspring, Paul Foreman. Yesterday A. C. Williams, attorney for the wife, came back at the husband, accusing him of failing to obey the order of court. Foreman, who works in the lumber yards at Sanger, was directed to pay \$10 a month alimony. The wife claims to have received no money from her husband Joe and Judge Austin has cited Joe to show cause why he should not be committed for contempt of court. The date set for Joe's appearing September 25th.

**Defendants Default.**  
Judgment by default was entered in two cases yesterday. Judge Austin gave Martha Kirch judgment in a suit brought by her as administratrix of the estate of Antonio Kirch against Mary Kirch as administratrix of the estate of Matthias Kirch on a promissory note of \$200. Thompson & Prince were attorneys for the plaintiff.

Lucius Norris, represented by L. L. Cory, got judgment in the quiet title suit of Norris against E. M. Harris, administrator of the estate of John Norris, appointed that the suit might be brought. The land in question was lot 31, Norris colony. The case was tried before Judge Churchill.

**Asks for Letters.**  
Attorney M. F. McCormick for the public administrator has filed a petition for letters of administration on the estate of Otto Rohde. Rohde died in Denver on January 20, 1904, leaving a note of \$2700 secured by real estate given him by N. J. Clifton on December 29, 1902. The heir is Annie Rohde of Barren, Germany.

Public Administrator Chittenden has been given letters on the estate of J. W. White.  
Julia L. Horne wants separation from George F. Horne. Yesterday Attorney N. C. Caldwell filed a complaint for her asking that divorce be granted her. Stipulation of dismissal has been entered in Fred W. Schum against Mrs. Frank Williams by G. W. Cartwright for the plaintiff and M. B. and E. M. Harris for the defense.

### REAL ESTATE TRANSFERS.

### Communication.

North Fork, Cal., Sept. 12, 1905.  
Editor Republican:

I desire to correct some false impressions that might have been left as a result of the publication of the fact that Will Henry was suspected of being Robert Chesner, a desperado wanted in Arkansas for train robbery. It was stated that I had Will Henry, my relative, arrested several weeks ago. I did not have Will arrested. That he was in jail I do not deny, but I and my family knew nothing of it until we saw an account in the Republican on June 1st. Some months ago owing to ill health Will took to using morphine and he became a victim of the habit. He had himself locked up in order to break the habit and I had nothing to do with it.

In regard to his identity, let me say that Will was born in Terre Haute, Ind., in June 18, 1856. He was Chesner, as I understand it, in 1893 had a wife and five children. Any intelligent person by comparing the dates will see that Henry in 1893 and Chesner must necessarily have been two different persons. Henry is anxious to have the sheriff from Arkansas take a look at him that the good name of himself and our family may be vindicated.

Very truly yours,  
R. C. FUGITT.

### Lecture—Portland Exhibition.

Rev. Arthur P. Brown, pastor of the First Baptist church, has just returned from an extended trip to Portland, and other points of interest. He will give a talk on the Lewis and Clark expedition, the famed Columbia river, the Mount Shasta region and the High Sierras tonight at the First Baptist church, corner Mercantile and N streets at 8 o'clock. The public is cordially invited, no admission will be charged, but a benefit collection will be taken for a sick and crippled member of the church.

### Money for the Convention.

Yesterday the Board of Supervisors voted \$100 from the advertising fund of the county to the W. C. T. U. state convention which will be held in this city next month. Mary Fletcher, Woodward appeared before the board and made the request for the appropriation.

Belgium Want Hankow Road.  
ANTWERP, Sept. 14.—The Antwerp today says the Belgian minister at Peking has been directed to co-operate with the French minister in making representations to China to the effect that the Pekin-Hankow railroad concessions give the Belgian-Belgian interests priority to build and operate the line after the withdrawal of the Americans.

## EMPLOYEES OF CIRCUS STRANDED IN FRANCE OBJECTS OF CHARITY.

NEW YORK, Sept. 14.—A number of the members of the McCaddon circus, which was recently stranded at Grenoble, in Southern France, arrived here on the steamer Roma today. Four of the party were cabin passengers, among whom was C. M. McCaddon, advance agent of the circus. The rest came over in the steerage. McCaddon said the troupe had numbered about 300 persons and that it was stranded because of a collection for rent levied by a French financial institution on the receipts of the show, and 120 of the members were left destitute. The American consul at Grenoble, Charles E. H. Nelson, cared for them. Many members of the circus are still at Grenoble or Paris so destitute that they depend for support upon private subscriptions of money.

### METHODIST CONFERENCE RECEIVED REPORTS AND NEW MEMBERS.

PACIFIC GROVE, Sept. 14.—The Methodist Episcopal conference opened its day's proceedings with prayer and experience meeting led by Rev. W. W. Case. Bishop Berry then received a number of new members. Dr. Swartz spoke of the need of missionary work in Japan. Rev. John Coyle, presiding elder of Oakland district, in presenting his report, spoke of the struggle of citizens to obtain a foothold and a free hold, making it difficult adequately to sustain charities, in spite of which high-water mark had been maintained. The Oakland churches, he claimed, stood for everything spiritual, vital, intelligent and progressive.

## HOOSIER STATE'S AUDITOR FIRED

HE USED PUBLIC FUNDS IN HIS  
PRIVATE CAPACITY.

Governor Demanded Settlement and  
Failing that the Resignation of  
the Delinquent Official.

INDIANAPOLIS, Sept. 14.—Alleging that David E. Sherriek, auditor of state, is guilty of a plain and inexcusable violation of the law, and gross betrayal of public trust in that he invested funds belonging to the state in private affairs, to the extent of about \$145,000, Governor Hanford today ordered his removal from office. Sherriek, who had been in the office, and appointed Warren Bigler, of Wabash, as his successor. This in effect amounts to a removal of Sherriek by the governor, though the official statement is not made that way. The governor gave Sherriek until noon today to make his settlement. This was not done and the governor, having asked for Sherriek's resignation three times, effected the removal. Sherriek has not been arrested as yet, and in his statement Governor Hanford did not say that such action was contemplated. Sherriek could not be seen at noon today.

In a formal statement issued relative to the matter, the governor says he has investigated the conditions in the auditor's office since the last of August, having received information that Sherriek had not made the July settlement for the state's funds, which had accumulated from January 1 to July 1, 1905. He immediately asked for a settlement, which was made.

This amount was about \$235,000. In addition to this amount the auditor, in his statement to the governor, admitted that he was at that time, chargeable with state funds paid in since the July settlement, amounting to \$145,197.30, for which he filed a schedule, enumerating the assets he owed to the state. These items included notes, stocks and securities amounting to \$152,833.33, of which, according to the governor's letter, only \$37,555.01 could be realized.

At the time of his analysis of the assets submitted by Sherriek was made, the governor formally requested Sherriek to resign. The resignation was not forthcoming. The governor requested that Sherriek turn over to John E. Reed, the settlement clerk in the auditor's office, the securities enumerated and then was done. The governor also demanded that settlement to the extent of \$145,197.30 be made with the state by noon today and on being advised by "persons whom he thought to be in a position to know" that the settlement could not be made, he again sent a message, this time verbal, requesting Sherriek to resign. At noon the request had not been complied with and it was repeated. Again not complied with, the governor entered an executive order finding the existence of a vacancy and appointing Bigler.

**Finland Reformers Dispersed.**  
HELSINKI, Finland, Sept. 13.—Troops with fixed bayonets today dispersed a meeting of 800 delegates from all towns in Finland, called for the purpose of discussing the present situation. The police had previously ordered the delegates to disperse, but the order was ignored.

### Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 16, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Col.) He recommended a bottle of Snow Liniment; I got a 50c size and it cured my leg. It is the best liniment in the world." Sold by Geo. H. Monroe, Special Agent.

## BATTLE WITH OAKS

### FRESNOS OPPOSE ATHLETICS HERE, NEXT SUNDAY.

Visitors Are Due to Play a Fast Game  
and Local Fans Are Assured a  
Treat.

Fresno's opponent on Sunday afternoon will be the Oakland team. A miracle was made in printing the proceedings of the various clubs on Tuesday last, and Oakland was not credited with a victory since the second half began. The only team that has not so far won a game is San Francisco. The Oakland two weeks ago defeated Fresno, by a score of 3 to 2.

Manager Berovich has faith in his team and believes before the final game of the season they will be heard from in several victories. Individually, there is no questioning the playing ability of the Oaks. It is collectively that they are weak. Lack of team practice makes them prone to error making and a bad inning or two in each game has been the chief cause of their staying at the bottom of the heap. But it is not to be gained, that in Fresno the Oakland have always played a glit-e-ged ball. When they were here at Fresno just did squeeze out victoriously with a 4 to 3 score in a game that was exceptionally fast.

The elongated Tyson will again be on the slab. Tyson has not been able to keep up the grit he started out the season with. In the first game or two nobody could fathom his curves. Fresno was an easy victim getting but one hit off him. But in the last game here, Fresno got nine hits. He pitched good ball at San Jose last Sunday but was given such ragged support that a game was lost. The Oaks are due to play a glit-e-ged game and consequently a bang-up exhibition can be expected Sunday.

The locals will be made up precisely as on last Sunday, except that it has not yet been definitely determined whether Hopkins or O'Brien will pitch.

Spain and Great Britain.  
MADRID, Sept. 14.—The press criticizes the government action in permitting the British surveying vessel Goldfish to carry on hydrographic work along the Spanish coast.

Arranging the Armistice.  
GODZYADAN, Manchuria, Sept. 13. (Wednesday)—Another letter from Field Marshal Oyama with regard to the armistice arrangements was received in the Russian lines today.

## ALL Quiet in Yokohama.

YOKOHAMA, Sept. 14.—The city is quiet today, several military companies there, several new outbreaks during last night, but no damage was done. Thirteen arrests were made. Consul General Miller is of the opinion that there will be no demonstration against Americans. The Tait party is expected to arrive here on Saturday.

### Japanese Peers Take Action.

TOKIO, Sept. 14, 5:30 p. m.—Eleven peers, headed by Prince Nijo, memorialized the government today, criticizing its failure to prevent the recent disturbances where the emperor resides, and asking the chief of the metropolitan police should have been degraded while the home minister, his superior, is permitted to retain his post.

## VISITORS

will do well to remember that the Hill Military Academy offers splendid home-like accommodations for all who visit Oakland during the exposition. The location of the academy is a most desirable one. It is situated less than ten minutes walk from the entrance and close to street cars. It is the only building in a large block in the center of the best residential portion of the city. Meals will be served in a large and commodious dining room connected with the academy. For rates and reservations apply to J. W. HILL M. D., Prop., Oakland, Cal.

### Notice of Trustees' Sale.

Whereas, Simon P. Stevens and Nellie M. Stevens, his wife, as parties of the first part, did execute a certain deed of trust, dated the 7th day of April, 1894, to George M. Perine and Grant Cordrey, as trustees, for the benefit and security of the Renters' Loan and Trust company, a corporation, which deed of trust was recorded in the office of the county recorder of the county of Fresno, state of California, on the 6th day of May, 1904, in liber 333 of deeds, at page 10 of seq.

Now, therefore, according with the terms and under the authority of said deed of trust, and in pursuance of a resolution passed and adopted on the 12th day of September, 1905, by the board of directors of said Renters' Loan and Trust company, the holder of a certain promissory note made by and between Simon P. Stevens and Nellie M. Stevens to Renters' Loan and Trust company, to secure the payment of which said note, said deed of trust was executed, declaring that default in the payment of the monthly installments of dues, interest and principal, had been made and that the whole of said note had thereby become due and has not been paid, and requesting and directing the said George M. Perine and Grant Cordrey, as trustees, under the power and authority conferred upon them by said deed of trust, and in pursuance of said resolution to sell said real estate described in said deed of trust and hereinafter described, to satisfy said indebtedness, the said George M. Perine and Grant Cordrey do hereby give notice that on Tuesday, the 10th day of October, 1905, at 12 o'clock noon of said day at the auction room of the said Renters' Loan and Trust company, situated at 207 Montgomery street, in the city and county of San Francisco, state of California, they will sell at public auction to the highest bidder, for cash in gold coin of the United States of America, all of certain real property, with improvements thereon, situated in the city of Clovis, county of Fresno, state of California, and particularly described as follows:

Lots numbered six (6) and seven (7) in block numbered twelve (12) of Clovis city, according to the supplemental map of said city, on file and of record in the office of the county recorder of the county of Fresno, state of California.

Terms of sale: Cash in gold coin of the United States of America; ten per cent payable to the undersigned at delivery of deed and balance upon delivery of deed and said balance to be paid in full on the day of sale, or less for want of title (ten days before allowed for search), then said ten per cent to be forfeited and sale to be void.

GEORGE M. PERINE, Trustee.  
GRANT CORDREY, Trustee.

## THREE JURORS CURED.

Of Cholera Morbus With One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Claiborne county, Alabama. He says: "While there I ate some fresh meat and some house meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera medicine, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were cured in the same manner and one small bottle cured the three of us." For sale by all druggists.

A. Sellar	28	1844	49.32

## PRICES CURRENT.

CHICAGO, Sept. 14.—The wheat market was firm from start to finish. Wet weather in the greater portion of the spring wheat country was the source of strength. Another reason for improved demand was found in publication of revised statistics regarding the wheat crops of Russia. Today's figures made 441,600,000 bushels as the total yield, as against a previous estimate of 431,000,000 bushels. On the basis of the revised figures, this year's crop will be 17,600,000 bushels less than that of last year.

Initial quotations were practically the lowest of the day. December opened 1/2 to 1/4c higher at 83 1/4 to 83 3/4c. The market later eased off a trifle on profit taking but the close was firm with December at 83 1/4c.

Corn was firm. December opened unchanged at a shade higher at 43 1/2 to 43 3/4c, sold up to 44 1/2c and closed at 44 1/2c.

Oats strong. December opened 1/4 to 1/2c higher at 27 1/2 to 27 3/4c, sold up to 28 1/4c and closed at 28 1/4c.

Provisions were firm. At the close January pork was up 2 1/2c to 54c. Lard was up 1/2c to 7 1/2c, and ribs were 5c higher.

**San Francisco Grain.**—Wheat, steady, December \$1.33 1/2. Barley, steady; December \$1.02 1/4. Corn, large yellow, \$1.00 to \$1.01 1/2. Bran \$20.50 to \$21.

**Dried Fruit Market.**—Evaporated apples, firm, 5c. Apples, extra choice, 5 1/2c to 6c; fancy, 6c to 6 1/2c. Prunes, medium, 11c to 12c; large, 12c to 13c. Raisins, 11c to 12c.

**Butter, Cheese and Eggs.**—Butter, fancy creamery, 26c to 27c. Cheese, Eastern 15c to 16c; Young America 14 1/2c to 15c. Eggs, Ranch 28c to 29c; store 22c to 23c; eastern 20c to 21c.

**Oil Stock Transactions.**—Morning session: 500 Associated ..... 30  
400 Fort ..... 48

**FOOLISH YOUTH WHO SENT INFLAMMATION MACHINE FOR NOTORIETY RESULTING.**

NEW YORK, Sept. 13.—Thomas French, the East Orange, N. J., youth arrested yesterday by postoffice inspectors, confessed to the police today that he had sent threatening letters and informal machines to Valentine Bicker, an insurance agent, who resides in East Orange. The boy, who is only 17 years old, says he sent the machines as a joke, that he got the idea from reading of such devices in newspapers and anticipated the pleasure of his own construction. French also confessed to having set a public school building and a neighbor's barn on fire, according to the police, and said he had practiced at burglary in his own home, frightening his mother and sisters badly. Application was made today for a commission to inquire into the youth's sanity.

**MINISTER LEISHMAN STIRS UP THE SULTAN ON CITIZEN'S BEHALF.**

PARIS, Sept. 13.—A dispatch to the Temps from Constantinople says that the sultan has ordered a ministerial inquiry as the result of the energetic protests made by American Minister Leishman, relative to the sentencing to death of Ghilisk Varianian, who professes to be a naturalized American, for the killing of Apik Udjian, a prominent Armenian, on August 26. The dispatch says that Minister Leishman did not deliver an ultimatum, but complained that the Turkish government had disregarded international law and that the minister insists upon verification of the American passport produced by Varianian.

**Steam Engineers Favor Exclusion.**

TORONTO, Sept. 13.—The international Steam Engineers' union in annual convention today passed a resolution urging the exclusion of Chinese, Japanese and Koreans from the United States and Canada. It was also resolved that undesirable immigrants from Europe should be excluded.

**The Dutch in Celebes.**

AMSTERDAM, Sept. 13.—A dispatch from Batavia, Island of Java, announces that the Dutch troops have captured Palapa, the capital of Prince Loewoe of the Island of Celebes, who has been causing the Dutch trouble. The garrison offered a vigorous resistance and the town was only taken after sharp fighting.

**Heavyweights to Battle.**

SALT LAKE CITY, Sept. 13.—Articles were signed here tonight for a twenty round contest between the heavyweights John Wille, of Chicago, and Gus Rhodin, the "Akron Giant," on September 25, before the Athenaeum Athletic club of this city. The winner is promised a match with Marvin Hart or the championship of the world.

**INDIANOLA, Iowa, Sept. 14.**—Four men were killed, six were perhaps fatally injured and a dozen more were stunned by a bolt of lightning that wrecked a crowded poultry exhibition tent at the county fair here today. Thousands of chickens were killed. The dead: Ray Anderson, Carl Peterson, and Theodore Young, all of Indianola, and Blaine Wright, Pleasantville.

The seriously injured: Dr. Carpenter, J. McGranahan; E. W. Freel, Earl Barker, C. S. Helberger, John Smith, all of Indianola.

**SNAPPING OF PILE KILLED THE FOREMAN OF SAN PEDRO WORK.**

SAN PEDRO, Sept. 14.—Joseph Chambers, 26 years of age, a native of Austria, foreman in charge of the work on the government breakwater, was struck on the head and instantly killed this morning by a portion of a large pile which snapped in two when it was being pulled from its place. Chambers was standing on the edge of the breakwater and was knocked on to a pile of rocks and rolled from them into the water. His comrades began a search for the body and some time later it was found. Life was extinct and it is thought the blow on the head killed him.

**MINISTER TO HAYTI WILL RESIGN POSITION BECAUSE OF RIOTS.**

CANBEN, N. J., Sept. 13.—William P. Powell, United States minister to Hayti, who is on a leave of absence from his home here, today announced his intention of tendering his resignation to President Roosevelt at once. He gives as his reason for resigning the prevalence of revolutions, riots and fever in Hayti.

**WASHINGTON, Sept. 13.**—Acting Secretary Loomis of the state department said tonight that Powell's resignation has not been received at the state department. The announcement of Powell's resignation is something of a surprise to the state department officials.

**Spanish Election Disorders.**

MADRID, Sept. 13.—Further election disorders are reported from Castellon de la Plana and Tarragona. The reports say that one person has been killed and several were wounded.

**Bombs in Armenian Churches.**

BRUSSELS, Sept. 13.—According to a dispatch to the Petit Bleu from Athens nineteen arrests, including that of an Armenian priest, have been made there in connection with the discovery of a large quantity of bombs in Armenian churches.

**More Quakes in Italy.**

ROME, Sept. 13.—The fresh shocks of earthquake have caused considerable damage at Cozenza. The law courts at Cozenza threaten to collapse and the lawyers refuse to enter the building.

**Sugar Beet Notice.**

Owing to the fact that the day set for the sugar beet meeting is on a Sunday, it has been determined to postpone the sugar beet meeting until Saturday, September 16th, at 2 o'clock, at Armory hall.

All farmers and planters, interested in the sugar beet industry are requested to be in attendance at this meeting.

## New Black Goods—First Showing

Silks and dress goods claim attention; richer in values than ever before. You may be sure these special values were not obtained by luck or chance; it took clever buying and large orders to get prices scaled like these.

### Yd. Wide Taffeta \$1.39

A very fine grade of imported taffeta silk; full 36 inches wide; guaranteed all pure silk; warranted not to split and as good as any of the \$2 silks on the market.

### Corona Silks 48c

A 20 inch genuine Corona lining silk; all silk at that; it will not cut or crack; used for coat linings or drop skirts.

### Bartholdi Silk 85c yd.

A handsome taffeta weave; pure silk; the guarantee woven on every yard; perspiration water and spot proof; it is unusually low priced at 85c a yard.

### Black Silk Brilliantine

50 inches wide; high lustre; equals silk in glossiness; sheds the dust perfectly; much used for coat suits.

### New Skirts \$6

Fashion right and extra values; new with a newness that will appeal to critical tastes; made of soft voiles and etamines; perfectly designed; full flare; full plaited; fitted yoke. We are saving close to a third of the cost of these garments; the bargain is too good to be lightly passed over.

### Misses School Hats 75c

The new effects in patent leather, and the patent trimming is immensely popular. These hats are intended for young ladies; to be had in the Tricorn and Colonial shapes; patent leather; crown binding and trimmings; colors navy blue, tan and brown.

### Boy's Suits \$2.50

New arrivals; made of good woollens; in new patterns; shades of brown, gray and blue; double breasted coats; knee trousers; coats have the long lapel; the deep vent; the right cut; ages 8 to 14 years.

### Young Ladies Shoes \$2

For school girls and misses; slightly and durable footwear; made with the sensible school heels; uppers of fine kid; extension soles; patent leather tips; shoes worth up to \$2.75 selling for \$2; sizes 2 1/2 to 6 1/2.

### Grocery Specials

Fresh Bread, 3 loaves... 10c  
Fancy Japan Rice, lb. .... 5c

## New Lace Curtains and Portieres

Welcome news for Fresno home comers who are fixing up their homes for the fall and winter!

The curtains come in all the newest effects—Nottinghams, Irish Points and Arabian Lace; priced from 75c to \$10 the pair—best value at every price.

The Portieres are all rich and beautiful, in mercerized, silk and tapestries—\$2.25 to \$25 the pair.

Early comers get best choosing!

## W. Parker Lyon

The Furniture King  
1132-40 I Street.

## Repair Work

of the first quality done here.

Our repairer is thoroughly competent to do all kinds of repairing in the jewelry line — and turns out nothing but satisfactory work.

### H. B. OBERLIN

The Progressive Jeweler,  
1119 J Street.  
Fiske Block.

ST. LOUIS, Sept. 14.—Printers in eight union offices here were called out today. President Jackson of local Typographical Union No. 8 said that about 175 printers stopped work. He also stated that out of the 140 printing firms in St. Louis, sixty signed the eight hour scale today.

S. B. Goodman, the merchant, has in the hands of contractors plans for an \$8000 residence to be constructed immediately upon T street. It is to be a frame, ten room house.

The Equitable Securities Co. of Los Angeles, will loan you money on city property. See Pearson's Exchange, the local agents; next to P. O.

A. J. Paterson, piano tuner and repairer, 1227 B, phone black 195.

## CHINESE BOYCOTT TOLD IN FIGURES

EIGHT MILLION DOLLARS' WORTH OF GOODS TIED UP.

In Shanghai Warehouses 'Alone—Total Value of Goods Affected Put at \$25,000,000.

WASHINGTON, Sept. 14.—The state department received today a communication from Consul General Rodgers at Shanghai which sets forth the condition of affairs there commercially. Growing out of the Chinese boycott, one phase of the movement which is disturbing to all business minds, he says, is the effect it is likely to produce upon the finances of a great center of commerce. There are at the present time in Shanghai warehouses approximately 169,000 bales of American pig goods, valued at nearly \$8,000,000. The question, therefore, of marketing these goods under the present conditions and with Manchuria closed, he adds, presents a very serious condition and is apt to cause great difficulty, not only to the Chinese merchants but also to the importers.

What is true of pig goods, he says, is also true of all other lines of staple products. The market has been overstocked and nothing is moving, and while the Chinese merchants are now suffering the foreign firms will assuredly feel the effect on the settling rates. The total value of foreign goods likely to be affected by this boycott movement in Shanghai alone has been estimated conservatively at \$25,000,000.

Consul Sammons of Newchwang, China, also communicated to the state department today that he has been requested by the Chinese government to place upon which occasion they declared that the boycott on American goods had been suppressed.

The state department has been informed that the Japanese government has removed the restrictions on river shipments to the interior of Manchuria. This is interpreted to be favorable to the marketing of American goods in Manchuria.

## WASHINGTON GLADDEN WILL FORCE EXPRESSION ON "TAINTED MONEY"

SEATTLE, Sept. 14.—Dr. Washington Gladden arrived tonight and was met by a large number of his supporters. He is a late hour. To intimate friends, Dr. Gladden declared his intention of carrying the fight against "tainted money" into the convention. The declaration created consternation among the minority and they taxed every resource to their command to prevent him from his position. Dr. Gladden says he regards the issue of such importance to the underlying principles of Christianity that he cannot permit himself to waive the opportunity to compel a consideration of the question. He feels that the formal protest filed with the presidential committee and disposed of by that body does not dispose of the matter. He says the board should be given an opportunity to place itself on record before the incident is closed.

## CIRCUS SYMPOSIUM

WHAT THE REPUBLICAN STAFF THOUGHT OF SHOW.

It Was a Great Big Pageant, With Marvelous Feats and Was Seen From Many View Points.

Every man on the writing end of the Republican went to the circus yesterday—as did nearly every body else in town and the country round. Of course, it was a great big show, with three big rings and something doing in each of them. The general opinion of the circus was that it was fully up to representations, and considering the hyperbolic style affected by circus press agents, to say the show was up to representations is to concede high praise.

But, as stated every man on the writing end of the paper went to the circus yesterday and was asked to describe in a hundred words or so the thing that most impressed him at the circus. Here is the synopsis:

**Handling the Crowd.**  
What impressed me most were the crowds and the way they were handled. There is no crowd so motley as the Fresno crowd, and none so hard to manage. Indians, Chinese and Japanese, enough to make a curiosity show in themselves anywhere but in Fresno, and then a mixture of all the races, speaking all the tongues of Europe, lost and helpless in the confusion, and sure to go astray unless there is a man stationed everywhere they stray, whose business it is to guide them right. Two of three years ago the crowd at the circus was King of the Bros. and overflowed the rings and everywhere else in unmanageable floods. Yesterday they were handled smoothly and easily.

One thing more impressed me. The one ring circus of thirty years ago, seen through a boy's eye, was infinitely superior to anything that modern resources can provide, seen through a boy's eye.

THE EDITOR.

**The Mark of Sordid Lives.**  
In no sphere of human activity is the mark of sordid lives more indelibly stamped upon the participants than in circus. Men and women of every age are the performers. No one ever saw a truly old man in a circus. The incessant strain, the absence of everything which makes for comfort, leaving out of the consideration the attendant danger, these are things which try the human organism and destroy the soul. Men and women in a circus afford strange contrasts with the denizens of the menagerie. Elephants, dromedaries, horses, dogs, giraffes and other four-footed "property" are costly. For them the best of care is imperative. Almost sylvan comfort is their portion. But men and women? Fired for wages and paid only as long as they earn them—these can be replaced with impunity. There are sadder things in life perhaps, but surely the lot of the circus employee calls for the consideration of the tender hearted. The better to be a Nubian lion than a tumbler.

TELEGRAPH EDITOR.

**Directing Head the Marvel.**  
The over-shadowing marvel of yesterday's circus is the absence of confusion with which the entertainment is presented. The greater part of the complex machinery is hidden from the spectators. It must be a kind of no-pigmy proportions which, controlled by the direction of the mammoth engines and the placing in position of a forest of poles, rope enough to supply a battleship squadron, and innumerable pulleys and stakes.

A military genius, a great admiral, or a captain of industry has no greater problem of compact organization of human units to solve than confronts the construction chief of the circus. With the human flotilla he must whip into shape to intelligently do his bidding. An able-bodied genius overflowing with animal spirits—yes, even the one who did the stunts for Aladdin—would balk at the task of transporting, unpacking, erecting, and dismantling to be packed and transported again which is a part of the day's work of the circus employee. Anyone who has moved the furniture of a five room flat, with a hungry baby crying for his dinner, will appreciate the immensity of circus moving, although not many of the menagerie denizens can exceed the noise of a hungry baby.

TELEGRAPH OPERATOR.

**Impression Was Introspective.**  
What impressed me most about the circus was my own changed attitude toward things. While witnessing the bareback riding, I had no longing to try it on the old mare Dolly in the back yard. After seeing the trapeze performer, I did not resolve to attempt the feat of hanging from a beam above the barn loft where there was plenty of soft hay to fall upon. What impressed me most with the circus was the fact that I didn't—couldn't—laugh at the clowns. What impressed me most with the circus is the fact that I am 30—not, let us hope, in the newspaper sense. The next thing that impressed me was the fact that the Japanese had captured the great American circus, wonder Kirovakin, couldn't withstand him. And they are wonderfully clever.

CITY EDITOR.

**To Be a Boy Again.**  
Many a man leaves the first laden atmosphere of a huge circus tent behind him wishing he were a "kid" again just to feel the wonder, the splendor, the inspiring start of light when an acrobat whirls through the air and escapes death seemingly only by mere luck. A boy who under a circus tent and gets kicked out of a stolen seat before he gets safely lodged in a stolen seat, knows there is an uncomfortable heat in the wonderland, he does not see the sordid, the fearfully hardened faces of the show people, his nostrils cave not for dust. To him the tent is the biggest in the world, the animals wild, fierce and the grunts of the elephants terrifying and real, the pink lemonade the best that is made. The biggest thing about a circus is that to those to whom it gives the keenest delight there is nothing grander, nothing to be gazed at half as free from earth.

COURT REPORTER.

**His First Circus.**  
What impressed me most in this my first circus, was the confusion caused by the multitude of things going on at once and a sense of disappointment at the individual features. I was back riding and I was not nearly so impressed. I had thought of it from seeing the posters. The clown was a very poor sort of creature—to me who had been looking forward to seeing him for twenty years. In fact, one probably must be small in order properly to appreciate a clown. The multitude of events leave a confused impression on the mind. I was not in a preservative of hot, moist and dusty air. I think the single event which impressed me most was the antics of a little terror that had been remarkably trained by its clown master to climb over him and do other tricks, almost without direction.

CITY HALL REPORTER.

**Those Present Were Legion.**  
What impressed me most with the circus was the utter impossibility to get up a list of those present under the huge canvases. That enormous duty off my mind, I could really enjoy it. And those horses, danced divinely. I hope some of our society printed by the lesson. The Durbar at Delhi, I would not describe as an event, and you know when a society reporter won't call a thing an event it doesn't amount to much. Those present were—oh, I forgot—that out.

SOCIETY REPORTER PRO TEM.

**PERSONAL MENTION.**  
W. A. Bean and family have returned from San Francisco.  
M. L. Woy returned last night on the Owl from a visit to San Francisco.  
Mr. and Mrs. Henry Banta returned last night after a two month visit to friends and relatives in the East.

The funeral of T. B. Ore will be held today at 10 o'clock from his family residence at 318 Park avenue. Interment will be in Mountain View cemetery.

## WHY BUNKERS CONFESSED

(Continued from page 1)

**Secrecy in Part.**  
Johnson suggested that there was no attempt at secrecy, but Bunkers, who attempted to keep the secret of the term, the meeting was a great one but was not asked for an explanation of this qualification.

Bunkers said that at the meeting at which organization was effected only he, Wright, Emmons, French and Arthur Lee, the colored porter, were present. He denied that Charles H. Hugg, a San Francisco attorney, was there.

Bunkers repeated the statement made yesterday that Emmons said there were lots of Missourians here and they could be shown a thing or two. Bunkers said he tried the folding doors to see if they were locked and at the suggestion of Emmons, he went to the landlady to ascertain if anybody was in the adjoining room.

Minor Details.  
Many questions relating to the surroundings of the meeting place were asked and answered and deal of minor circumstances and detail were related.

Bunkers said he, French, Wright and Emmons waited until 9 o'clock to see if some of the other three members would appear before organizing. Wright was appointed secretary and it was agreed that some sort of synopsis of proceedings should be kept in case some of the other members should want to see it. The witness said Emmons remarked that it would not do to let the others know what they (the majority) were doing. Here much of the testimony was gone over.

**Work in Committee.**  
Wright made a motion before the committee that an inquisitor be appointed to inquire into the insurance companies. Wright also suggested that they go into executive session as they did not want any newspaper reporters around. It was decided at this meeting that Emmons should be the inquisitor and it was further decided to do away with the secretary and appoint a stenographer. Emmons said he had a man named Vaughn, a capable shorthand reporter, whom he could handle and have him make up reports from his notes to suit his needs. Bunkers said Emmons had suggested that the chairman (Bunkers) carry blank sheet papers in order that quick service could be made on building and loan associations.

Bunkers then repeated his statement of yesterday that he had reported, at the meeting that he had a talk with Jordan in which the latter had informed him he expected to "bring something good down." Wright, Emmons and French told him to go ahead.

Johnson sought to shut discrepancies in the testimony given by Bunkers yesterday afternoon and today, but made little progress in this direction. Bunkers made some slight additions today, saying his memory had been refreshed last night and today he recalled some minor incidents which escaped him yesterday.

**Perjury Again.**  
Johnson here read from the testimony given by Bunkers at his trial, in which he testified that the night the committee organized, nothing was done beyond perfecting organization. Johnson asked Bunkers if he told the truth, and the witness responded negatively.

"Then you knew when you gave that testimony that you were committing perjury," Johnson asked.

Seymour and Jones objected to this question, declaring it was an insult to the witness. An argument followed, the court ruling with Johnson. Bunkers said he knew he was committing perjury when he testified in his own defense.

Johnson then took Bunkers back to what he called the "marginal" with the district attorney. The witness stated no inducement was made more than the promise of immunity from prosecution for perjury and the further promise that the testimony he would give in Emmons' case would not be used against him if this appeal for a new trial was granted. The witness said he did not know until the latter part of last week that he might be called as a witness against Emmons. Seymour told him all he wanted him to do was to take the stand and tell the truth.

Bunkers had been positive that it was on Thursday, January 13, that the committee organized, but when shown the calendar from which he had made the computation, he admitted he had made a mistake, as the Thursday referred to was January 12th.

Bunkers repeated his statement made yesterday that Emmons and Wright told him to "keep Jordan in sight."

**LOS ANGELES WOMAN WHO DIED IN ITALY BORE ASSUMED NAME.**  
FLORENCE, Italy, Sept. 14.—When the will of the woman known as Mary R. Nabree, who died on May 10th, was opened today it was found that her real name was Mrs. Ott Cuzner, of Los Angeles and that she had been divorced. The woman's estate amounts to \$26,000 and she will bequeath \$2000 to charity, \$1000 to servants, \$8000 to female friends and the remainder to her son James and the remainder to her son James and the remainder to her son James and the remainder to her son James.

When these new cables are completed, Mackay said, their length, added to other cables already laid, or about to be built, will form part of a system which extends two-thirds of the distance around the globe.

The Commercial Pacific Cable company, which will be made by extending the present lines of the company which run from San Francisco

## BIG FOUR COMBINE

FURTHER PARTICULARS ABOUT THE RUPTURE.

Suit Will Probably Be Begun to Collect Rosenberg Bros' Forfeit of \$25,000.

Yesterday's Chronicle contained the following in regard to the rupture of the fruit combination, reported in the telegraphic columns of the Republican yesterday morning:

A break has occurred in the combination which has been existing for four years. The big fruit firms, Castle Bros., Guggenheimer & Co., Rosenberg Brothers & Co. and A. Gartenlaub. For some time these firms have had a mutual understanding or agreement in relation to the buying of fruit. The combine is said to have been so strong as to impose a forfeit of \$25,000 upon any firm violating the agreement.

Notwithstanding these conditions, Rosenberg Brothers have bolted the combination, and, according to reports, will be obliged to turn the above mentioned sum over to the other companies.

Whether they will do this without a protest remains to be seen. The senior member of the firm is out of the city and the other brothers were unwilling to make any statement in regard to the matter. They would neither affirm nor deny the charge that they had deliberately violated the terms of agreement with the other firms. "The matter is in the hands of our lawyer," they said, "and whatever legal steps are taken we will be prepared to meet."

While the true inwardness of the situation is not clearly understood by the public, there is a well established idea among the dealers on the street that the Rosenbergs found they could do much better by buying independently of the other firms and preferred to lose the forfeit money to continuing in the combination. This is the view that is generally taken by those on the outside.

The Castle Brothers would have little to say on the subject at this time. Albert Castle tacitly acknowledged that an agreement had existed between the four firms and that one of them had broken it. "I will say this much," said Mr. Castle, with a broad smile, "that it was not our firm that did it."

The proposition now is to collect the forfeit money from the Rosenbergs. As before stated, the latter will not say whether they are going to pay up or fight it in the court. Each of the other companies has commissioned its attorney to go after the money. That means it will be litigated in court if necessary.

Just what effect this rupture will have on the combination is hard to say, but as the Rosenbergs are the only ones that are out of harmony, the other three being in full accord, the agreement will probably go on without the recalcitrants. But it will also put the fruit buying business more upon a competitive basis again, and change with the fruit growers will probably welcome.

**CAN BE NO WELCHING**  
RAISIN DIRECTORS WILL ENFORCE CONTRACT STRICTLY.  
Will Prosecute Growers Who Attempt to Sell Outside—Prices on Bleached Expected Today.

The directors of the California Raisin company have determined that there shall be no evading of the contract by any of the members. The directors do not know that there will be any effort at evasion; preferring to assume that all the growers will act honorably toward the company. There are always rumors of moonlight deliveries, and the like, however, and the company has put its contract with the growers on a basis as aggressively opposed to anything of the sort.

At yesterday's meeting a resolution was adopted authorizing the executive committee to employ counsel to commence actions against any member who might endeavor to evade the terms of his contract with the company.

The growers' directors and directors of the packing company both were in session yesterday preparing for the opening of the season.

"Matters are now proceeding," said Vice President Tarpey yesterday, "upon the basis of good faith and the present temper of all parties that there is going to be joint action along the lines of the agreement of July 21st."

Prices on bleached were discussed again yesterday, but no action taken. The figures on bleached are looked for today.

**MACKAY'S WIRES**  
TO THE FAR EAST  
JAPAN AND CHINA ARE TO BE LINKED WITH US.  
Landing Rights Have Been Obtained by Commercial Cable Company—McKinley's Plan.

NEW YORK, Sept. 14.—Through American enterprises, the way has been won to connect the Western continent by direct submarine telegraphic lines with the empires of Japan and China. Clarence R. Mackay, president of the Commercial Pacific Cable company, at Shanghai, has secured the necessary concessions to enter Yokohama, Japan, and Shanghai, China.

Yesterday the last step in a series of diplomatic negotiations which were begun at the wish of President McKinley and which have extended over a period of about three years, was taken when Togo, Takahira, the Japanese minister to the United States, affixed his signature to Japan's agreement with the Commercial Cable company for landing rights at Yokohama. An agreement for landing rights at Shanghai was made by the same company several weeks ago.

When these new cables are completed, Mackay said, their length, added to other cables already laid, or about to be built, will form part of a system which extends two-thirds of the distance around the globe.

The Commercial Pacific Cable company, which will be made by extending the present lines of the company which run from San Francisco

## BARTON ANNOUNCEMENTS.

Program for the Fairs for Rest of Week—May Irwin Next.

In spite of the counter attraction of Barnum and Bailey's circus, the Fairs had a fair-sized house at the Barton last night. Tonight will be Eagle night and this afternoon at 2:30 o'clock will be the first of two matinee performances in Redlick's 1 street show window. He will be placed in a restless condition similar to that of a night mare in a normal sleep. He will be kept restless until 5:30 o'clock, when he will be made quiet by destroying the hallucinations. He will be carried to the Barton at 7:30 and awakened at the opening of performance, requiring four strong men to hold him at the time of awakening. Tomorrow at 2:15 will be given a special matinee at prices of 10 and 20 cents, no higher. Seats are on sale all day from 9 a. m. to 10 p. m.

The welcome announcement is made that the brilliant May Irwin, who has been added to the stage after a noticed absence of two years, will appear at the Barton next Thursday night, Sept. 21, coming direct from her prosperous San Francisco engagement. The entertaining comedienne is again appearing this season in an offering by George V. Hobart, who calls his latest work "Mrs. Black Is Back." The names of Irwin, Hobart, and "Mrs. Black Is Back," are significant and no comment is necessary to point to the humor contained in the combination. Some one has called the comedy a paradox, and parenthetically explained the matter as a "logical farce." While the situations and lines are as funny as a most exaggerated and absurd farcical concoction, the combination has the advantage of being logical and containing some dramatic force. Miss Irwin is always funny in the delivery of her lines, irrespective of their merit; she is, naturally enough, in her happiest vein when the lines are modernly right and sparkling such as the ones supplied by Mr. Hobart. In addition to a well constructed farce, Miss Irwin supplies an extra entertainment in her rendering, in the irreverent manner, of a programme of new songs written especially for her. The sale of seats will open next Monday morning at 9 o'clock.

**TYPOTHETAE WILL MAKE BIG FIGHT**  
UNION PRINTERS SEEM TO LEAD IN THE STRUGGLE.  
Fifty Establishments in Chicago Agreed to Proposals—Reports From Other Cities.

CHICAGO, Sept. 14.—Concerted action between the members of the Chicago Typothetae and a number of the big independent employers of printers was decided on today in an effort to oppose the demands of the union job printers of Chicago. The Typographical Union today demands on independent job and book publishing houses for an eight hour day and union conditions after January 1. After the union had ordered out 100 men in eight of these houses for refusal to grant the request of the union, the Chicago Typothetae, whose members are already involved in a strike, invited the independent master printers to meet the members of the Typothetae in an effort to devise means of fighting the union demands.

Nearly 100 independents attended the meeting. The motion was unanimously adopted to have a committee of twelve appointed to arrange for the formation of an organization of independent master printers to resist the eight hour day plans. Pledges were made by most of the independents present that they would temporarily affiliate themselves with the Chicago Typothetae in the struggle against the union.

During the day more than fifty small independent establishments on whom the union made demands, agreed to the proposal submitted by the union.

CHICAGO, Sept. 14.—The alternative of fighting a general strike of printers signing an agreement to grant the eight hour day and the union demands for the eight hour day and closed shop conditions, beginning January 1, was presented today to every book and job printing establishment here, not already involved in the compositors' walkout. Each steward who is the union's representative in the office where he is employed, was armed with authority to call the printers on strike immediately if the demands were refused.

It was estimated that employers of 2000 printers would be required to choose before night between having the plants tied up or granting the right to employ others than members of the typographical union and work the men longer than eight hours a day after the beginning of 1906.

NEW HAVEN, Sept. 14.—Forty-five printers who have been employed at various book and job printing establishments in this city are out on strike today on account of the refusal by the master printers of the union's demand for an eight-hour working day and an increase of the piece work price from 37 1/2 cents per 1000 ems to 40 cents. Five firms are affected. It is estimated that an effort will be made to secure non-union men to take the places of the strikers.

TOPEKA, Sept. 14.—The union job printers of this city were called out today on a strike for the eight hour day. Two of the five offices which are members of the National typothetae surrendered at once to the demands of the union. The two are the Mail and the Breeze and the Kansas Farmer. The other offices are in conference with the union printers.

NIAGARA FALLS, N. Y., Sept. 14.—At a meeting of the employers' association of Niagara Falls, representing \$20,000,000 of invested capital, it was resolved to stand by the newspaper publishers of this city in their fight against the striking printers. It was because will be offered by the association to printers who will work for the newspapers.

through the stations of Honolulu, Midway, Guam and Manila. Japan will be reached by laying a cable from Guam to the Pacific ocean, and from there to Yokohama. The cable to China will be laid from Manila to Shanghai.

In announcing the successful issue to the long negotiations Mackay said today: "We shall proceed at once with the manufacture and laying of these cables, which will take several months. The Commercial Pacific Cable company will then pierce the Far East by extending the present lines of the company which run from San Francisco
